## **CHAPTER 1**

### **INTRODUCTION**

#### **A. Background of the Problem**

The use of technology of smartphone is more active than reading a book. The students can find many books on the internet or many articles without paying too much even better for free and they can find more information. They used to be more active on social media than in real life. But without a doubt, that there are so many applications that can improve the ability in learning. Special for English education, the application that can help them to improve are dictionary offline and online, the bunch of vocabulary, the English games, the English quiz, the chat room for users in the world, and many more.

The development of smartphones is interactive and sophisticated, so they can access everything on that. Even for learning something, they can do that instantly by using applications and network connection. The education life is cannot be released from the technology of media and communication networks. In a good form, the technology of smartphones can be used as supporting media for finding some information, so they will not deny the good usability of smartphones.<sup>1</sup>

The smartphone is a cellphone that combines Personal Digital Assistant (PDA) functions such as calendar, personal schedule, address book, and can acces the internet, open emails, create documents, play games, and open other applications.<sup>2</sup>

The definition of learning media has a very broad scope, which includes humans, materials, or studies that build a condition that makes students able to obtain knowledge, skills, or attitudes. Learning media includes all the resources needed to communicate in learning so that the shape can be in the form of hardware, such as computers, Television, projectors, and Software used in the hardware<sup>3</sup>. For Hardware, the Smartphone becomes an active Tool for communicating for the students.

The media of smartphones will show us the positive effect if the student uses it in a good way as well, as Oka's perception.<sup>4</sup> The media for network systems is used for administration or even better for learning and teaching. Using media as a complement of learning and teaching is more needed at this time. As the matter of fact that learning English especially for the grammar learning in this era is not that active to used in the class. There is less technology that the tutor use in learning activity. The major factor is actually grammar needs a highly complete explanation for understanding the pattern of it, so the only way to achieve it is using a book as a media. But now, The media and technology becoming super active to used by any level in learning. To improve the skills in learning English, the students and the teachers need the Media and technology as a compliment and it will help them to more understand the material. It is more clear if use the media as the visual in learning so the students can imagine the topic in a real form.

A far from that, lots of students are very close to the social network or with their smartphone. Communication need is the major factor that causes this situation.

Besides that, entertainment needs becoming super important for teenagers at this age. That is why the students released the study time for interacting on social networks and entertain themselves with their smartphone.

Many of the students are complacent about their activities in cyberspace and even run out of time with things that are not useful. so from that point the writer feels the need for positive things from the neglect, as the hadith of the prophet Muhammad ﷺ as follows

وَالْفَرَاغُ الصِّحَّةُ، النَّاسٌ مِنْ كَثِيرٍ فِيهِمَا مَغْبُونٌ نِعْمَتَانٌ

"There are two pleasures that many people deceive, namely healthy pleasures and leisure time". Narrated by Al-Bukhaari (6412).

The application that the Writer use for this Study, is Webtoon. Webtoon is the most popular app in the play store in the comic reading category. Webtoon is officially launched for the first time in South Korea as a Webtoon portal followed by Naver in 2004. The readers can find much tittle Free as well and no need to pay any tittle on Webtoon.<sup>5</sup>

Webtoon is an open-source media for all writers in the world to still connect with the reader through their work. Fun fact about Webtoon is that it has a room comment for the readers and it will make them still know about the reader's opinion about their work.

Students of English Department IAIN Palopo at the 2<sup>nd</sup> Semester 2020 is the purpose of research target to develop the material of teaching in English using media of Webtoon Comic. the method in reading a Material trough comic in the application.

## **B. Identification of the Problem**

Based on the background of the problem, the writer can identify some problems, they are :

1. The student's frequency in using their smartphone can make the students rarely to study English
2. Utilization technology of the internet as media in learning is not applied immediately in learning English.
3. There is no such a thing as a language education of the content comic in the Application of Webtoon and the students read the comic only for Filling the free time, or just as a hobby.

## **C. Objective of Study**

1. To make use of technology media that is commonly used by users of such media in order to become a supporting media in learning.
2. to drive the use of mobile phones that are increasingly active in this day and age into more positive activities.
3. help lecturers and students find new ways to teach existing materials, namely grammar.

## **D. Benefits of Study**

This study is expected to provide benefits for various parties involved directly or indirectly in the world of education. The benefits expected in this study is as a supporting media in learning English In Learning Grammar, Help the teacher to give another way to teach the learning material. Give the students new experience in learning English through Comic in the Application of WEBTOON.

## **D. Specifications product to be developed**

The comic was made using a digital platform named Ibis Paint. So the writer use the application as the main tool. The writer use a lot of kind of Pens, textures, Brushes, and colors on the application. The writer made one illustration for at least 2 ours, the longest illustration was made for 2 days for one illustration. The illustration, the character, and the background or every element in the comic are created by the writer himself.

Here is the more specification of the product :

1. The title of the comic is "E.Time".
2. The vendor of the comic or the writer is WEBTOON.
3. The comic needs Internet Connection for accessing.
4. The character and the storyline created and arranged by the writer
5. The comic can be accessed by Smartphone, Computer, Laptop, or Tablet.
6. The comic will be published in the strip form.

## **E. Assumption and Limitation of The Study**

1. Assumption
  - a. The comic arranged as supporting media In learning English. The students at English Department 2<sup>nd</sup> semester of IAIN Palopo can learn English individually
  - b. The comic is able to use in the class and the teacher can use the comic as supporting media in learning.
  - c. The Webtoon Application has the language learning content in the application, so the reader can read it and learn from the series that the writer will publish.

## 2. Limitations

- a. The comic published on the internet, the reader can only access the comic when the connection of the internet is connected.
- b. The topic of the content is limited because of the limitations of media and the capability of the writer.
- c. The material of the comic is not as complete as the book, so that is why the comic is just a supporting media in learning.
- d. The material of the comic is not able to change.
- e. The comic is can not to be edited if the source data is missing, and this is an unexpected situation if someday the data miss.

*Solution for Point c :* The lecturers could complete the explanation after reading the comic

*Solution for point e :* The lecturers could tell the mistakes on the comic wheter it is about the mistkaes of writing rule or the grammar.

material deeply, and it is impacted by the student's interest in learning the material. And the writer hopes that the product will make the students realize that physics is a fun subject to learn.<sup>7</sup> The purpose of this development research is to find out how to increase students' interest in reading and how to improving student learning outcomes in physics material. The result of this study are: The study proved that comic will upgrade student's interest in the material of substance concept and The study increase the study result at the material of substance concept.

The Third is Hardianti. In her study, Hardianti was focusing on making master student's vocabularies, especially in verb and Noun. She was focusing on Doraemon. The title of her study is "Teaching English to the Students Through the Doraemon Comic to Master Vocabulary at the First Grade of SMPN 1 Tinggimoncong". The objectives of the research from her study are To find out whether is teaching English to the students through the Doraemon comic.<sup>8</sup>

*From the review os the studies*, the writer bring a new kind of comic for the study which is using the famous application as a provider in reading comic. The writer is also using the strip form of the comic which is different from the prevews study and the product will be published on online site application, not In a book form. So those are the different things from the writer's product.

## **B. Literature review**

### **1. Media in learning**

Media in learning is a thing that the students and teachers need for making an understanding more clear and help them to know more about the specific information from the material. Media education in general is a teaching and learning tool. Everything that can be used to stimulate thoughts, feelings, concerns, and abilities or skills of learners to facilitate the process of learning. Physical means of learning media to deliver content/learning materials such as books, movies, videos, and so on. Learning is a means of communication media in print and point of view heard, including technology hardware.<sup>9</sup>

### **2. Comic as Media in learning**

In our general perception, the comic is usually use as an entertainment media for reading a fiction story. No matter what type of a person it is, the comic has its interested person because of the genre of the comic is so varies. In this age, the comic of reading is coming out with a bunch of models, so it affects the world of education. With the right direction, illustration, and the creative way of learning, the comic will be an interesting media for learning. Based on Waluyanto's perception, the comic is a tool for delivering the message or the content of the study.<sup>10</sup> That is true because the illustration can make the situation more clear and easy to understand, so the massage will be easier to reach.

#### 4. Types of Development Models

In the literature, there are models of development models that the students use for finding the result of the study. Among of them are Borg & Gall, Gerlach & Ely, and ADDIE models.

##### a. Borg & Gall

It has 10 steps, they are (1) Research and information collecting,(2) Planning,(3) Develop Preliminary form of product,(4) preliminary field testing,(5) Main product Revision,(6) Main field testing,(7) operational product revision, (8) Operational product testing, (9) final product revision, (10)dissemination and implementation.<sup>12</sup>

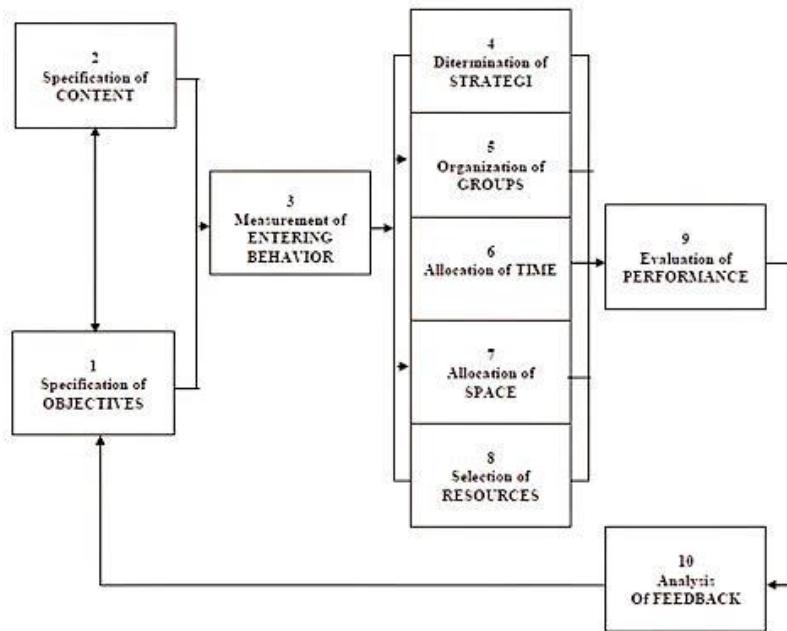

Picture 2.1. Borg & Gall Model

##### b. Gerlach and Ely

Gerlach and Ely's learning model is a systematic method of teaching planning. This model becomes a guideline or a map of the learning journey because in this model is shown the whole process of good teaching learning, even if it does not describe in detail each component. In this model it is also shown the relationship between the elements of one another and presents a

sequence pattern that can be developed in a plan to teach<sup>13</sup>. It has 10 system than can be seen below :

Picture 2.2. : Gerlach and Ely Model

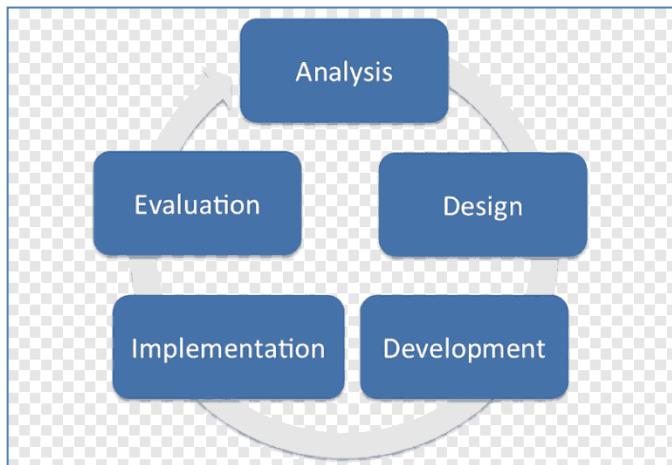

### c. ADDIE Model

Model Analysis-Design-Development-Implementation-Evaluation (ADDIE). It appeared in the 1990s developed by Reiser and Mollenda. One of addie's functions is to be a guideline in building devices and infrastructure training programs that are effective, dynamic and support the performance of the training itself. The ADDIE model is a simple framework that is useful for designing learning where the process can be applied in a variety of setting due to its common structure.<sup>14</sup> The system of it can be seen by the Picture below :

Picture 2.3. ADDIE Model

The writer's reason to chose this model is because the writer understanding it better than the others and it is a little bit easy to understand for the writer.

### C. Framework of Thinking

Picture 2.4. framework of thinking

The frequency of using a smartphone has an unfavorable impact on the students. Accordingly, it is necessary to increase the use of several applications that they use, like the example of a comic application that they use for reading comics. But

unfortunately, the comic application only contains millennial and fictional content. The absence of learning content encourages learning products in the applications namely Webtoon. An effort that will be developed for this situation is to make an interesting new learning platform for students so they can learn English in a fun way. Media and technology in education have many approaches, but there are two major approaches to using media and technology in education. First students learn 'from' media and technology, and second, they can learn 'with' media and technology. Learning from media and technology is often referred to as an integrated learning system. Learning with technology is referred to as constructivist learning environments.<sup>15</sup>

From that case, the writer creating two products, they are Online comic on Webtoon, and Guide User for the application or website.

#### **D. Question of the Study**

based on the problems mentioned, the question of the study can be formulated as follows :

1. What is the Appropriate of the content Webtoon comic as supporting media in learning Grammar for improving English Skill English at the 2<sup>nd</sup> Semester year 2020 of English students at IAIN Palopo?
2. What are Students perception about the product ?.

## **CHAPTER III**

### **RESEARCH METHOD**

#### **A. Development Model**

The Writer designed the method that was used to complete the research, which is research and development (R and D). The writer followed the instruction of the study using the ADDIE model. This model stands for the five stages of the development process, namely Analysis, Design, Development, Implement, and Evaluate. These phases are sequential, each depends upon the successful completion of the preceding phase. The design phase is the main point of action in this model.

#### **B. Location and Time of the Study**

The study was conducted at the Institute State Islamic Institute Palopo Especially in English Department in the 2<sup>nd</sup> Semester. It was conducted on June 2019 – August 2020.

#### **C. Subject and Object of the Study**

The population in this study was the students of English department of IAIN Palopo. There are 4 Classes with amount of students are . the sample of this study was 30 students that had been by using random sampling technique.

## **D. Procedure of Development**

Based on the ADDIE Model, writer use the procedure below :

### 1. Analyses

The gadget of the technology, becoming super active for teenagers or students. The fact that technology is a tool that helps the human to reach their needs. In technology, we already know about smartphone, tablet, or anything we call it, is more like an important human's thing that they never want to forget to bring it wherever they go. They can access many features in a small object that fits their hand easily. It sounds impossible, but it happens in our universe. The most important usability that the human use for their smartphone is communicating and get some information. As we can see in our environment the people almost seen looking down at their cellphone. And it happens for our young generation, especially for our students. The most worrying thing for this situation is they can access whatever they want with no filter anymore. And we can blame themself form this situation because it is more like their privacy. The benefit of this situation is to make our business is easier to reach by saving our time and our power. From all of the possibilities that may happen, the writer will develop the usability from one of the application that the teenagers access frequently, That is Webtoon. Webtoon is a comic application online based. From the reality of the information about this application, there is no educational language in their product of the title of the comic inside of this application. The writer will develop this situation and publish the educational English language comic.

## 2. Design

In this step, the writer designed the product by using several objects and media for designing the product. The writer design the product with use some objects, they are :

1. A smartphone is a drawing tool
2. Youtube and Grammar Application for the content of the Comic
3. Notebook for creating the model and concept.

This is a series of product manufacturing and design processes that the writer do in this study :

1. Determine the material of the content in the comic for each episode.
  2. Determine the main character or supporting character of the comic like the Name, characteristic, and visual.
  3. Determine the storyline for each episode using a slice of life genre of the comic
3. Develop

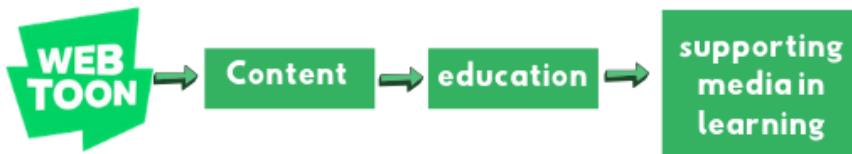

The writer developed the content of the Application to use the application as supporting media in learning Grammar. The application has many genres of the comic, but they are lacking of having an educational language inside the comic.

The writer will develop the application as a supporting media in learning the English language of Grammar. Here is the detail of the development.

The application just has nine genres of the comic, they are (1) Romantic, (2) Drama, (3) Action, (4) Comedy, (5) Slice of Life, (6) fantasy, (7) Thriller, (8) Horror, (9) Webnovel. The writer Chose an educational comic in Slice of Life

Genre. Because "slice of life" genre is closer to humans life because an educational story frequently happens in human life. This genre contains humans activity including education. But there is no English education in this genre.

The content of the slice of life is just like humor, the daily life of the people, or random event that happen every day for this genre. But it possible to put an educational comic because education is a part of life. With the light story include in this genre, the educational story has a bit potential to take part in the existing comic series. Here is a simple illustration to describe development.

Picture: 2.5 Illustration of the development from the application

#### 4. Implementation

The comic can be used as supporting media in learning. The teacher is given the breadth to explore the learning method for students. This comic is need an internet connection for the first access. But when they want to read it offline, it is available to download the Comic. The writer will post or publish the comic will be published in 6 episode include the introduction of the comic.

#### 5. Evaluate

This is the last step for this product. The writer posted or published the product after comparing the result of revision from expert judgment and the reality in Study.

## **E. Technique and Data Collection Instrument**

### **1. Data collection instrument**

The instrument of collecting data in this study is Questionnaire, the questionnaire items consists of some target needs ( necessity, wants, lacks) and target needs that was spreaded trough google Form.

### **2. Data collection instrument for the Expert judgment**

The product judged by the experts in some sectors, they are View, Model,Design,Content,material,Language, and Application. The questions Shared online.

### **3. Data collection instrument for product try-out**

The data collection instrument for the product try-out was the observation for finding the students perception about the product. The observation sheet was shared by Google Form.

## **F. Data Analysis Techniques**

### **1. Data Analysis on Need Analysis**

The writer using Questionnaire as a conducting data from the need analysis questionnaire, which is distributed to the Students in need assessment phase, is describe based on the answer that the students chose to show their needs. The result of this questionnaire will be calculated using the following formula.

$$X = \frac{\sum x}{N} \times 100\%$$

*N*

*N* = Total number of students

$$X = \text{Nilai}$$

*Σx* = The same answer of students

Students' choices (Necessity, lack, want, input, procedure, setting, teachers' role, and students' role ) are becoming a Study's background in designing the Product.

## 2. Expert's Validation

The result of data was converted in descriptive analysis. The indicator in measuring the result is the Mean (X). The Means will be used by using conversion pattern data:

$$M_n (X) = \frac{\sum f_x}{n}$$

$M$  = Mean

$\sum f_x$  = Total score

$n$  = Total items

Data Conversion Table was adapted from (Suharto 2006) in Alex Sander (2018)

| Scales | Interval of Mean   | Descriptive Categories |
|--------|--------------------|------------------------|
| 1      | $1.0 < X \leq 1.7$ | Very Poor              |
| 2      | $1.8 < X \leq 2.5$ | Poor                   |
| 3      | $2.6 < X \leq 3.3$ | Fair                   |
| 4      | $3.4 < X \leq 4.1$ | Good                   |
| 5      | $4.2 < X \leq 5.0$ | Very Good              |

Table 2.1 Data Conversion Table

### 3. Data analysis on Try-Out

The result of data was converted in descriptive analysis. The indicator in measuring the result is the Mean (X). The Means will be used by using conversion pattern data:

$$M_n (X) = \frac{\sum f_x}{n}$$

M = Mean

$\sum f_x$  = Total score

n = Total items

Vulnerable value used is the same as vulnerable value at expert judgments validation.

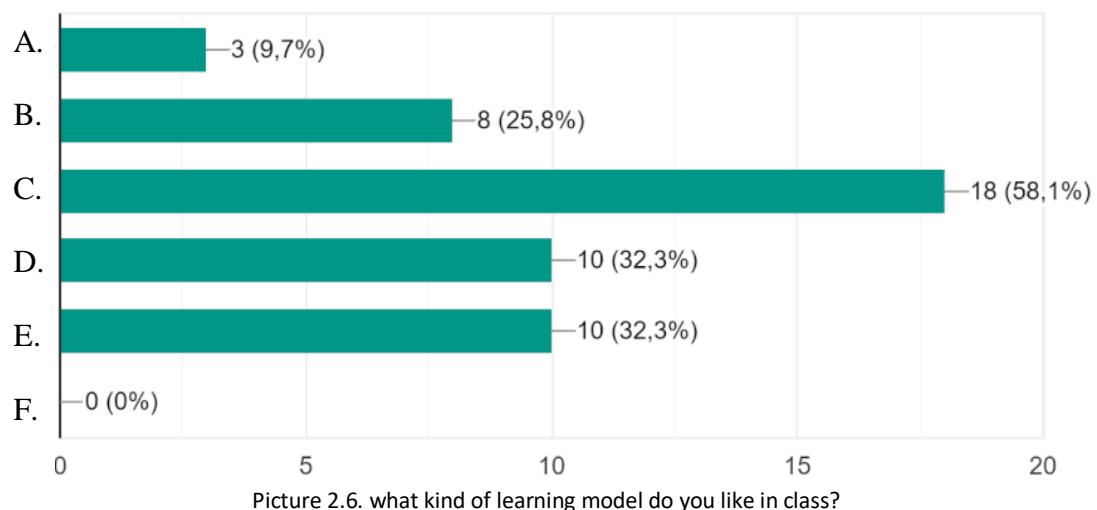

## CHAPTER IV

### FINDINGS AND DISCUSSIONS

#### A. Study Findings

##### 1. The Result of Need Analysis Questionnaire

There were 16 questions in the questionnaire. It was spread out for finding student's need, lacks and wants. The results of the questionnaire help the writer to make the product. Here are the results of it.

## 2. The Result of Expert's Validation

### a. Display

Amiruddin Akbar Fisu, the combination of colors, the convenience of comics when read, comic characters, and visuals are judged to be good, just a matter of taste for the combination.

### b. Content or Material

Nurhajar P., Tri Endar Yogi Setiadi Saputra,S.Pd.,M.Pd, The content of this comic is in accordance with the intermediate grammar curriculum that English students were studying Semester 2. This comic has been created in interesting form. This comic can also be learned or used to learn English in general. This comic is worth using, with notes there needs to be improvements to its language settings.

### c. Language

Devi Ismayanti,S.S,M.Hum, the structure of the writing in this comic is generally in accordance with the correct standards of English writing rules, examples of sentences, and closings in each chapter (SVO Pattern). there is a slight flaw in the translation theory in some parts. The use of language in this comic is semi-formal American English, which is precisely the target of the Student. This comic has also followed the development of American English for media standards. I personally really like this comic, although it uses full English, but still inserts the nuances of Islam in this comic..

## b. Comic Change

based on the criticism of the assessment team towards the comics here are some changes that occur in the comics.

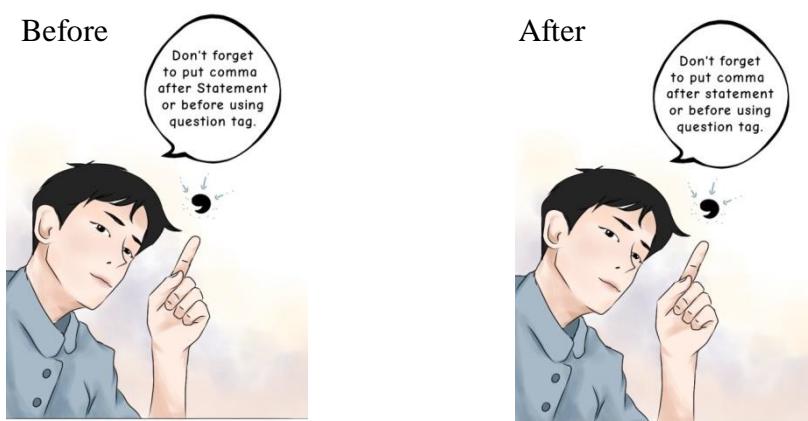

Picture 2.19 before and after revision

the first image still looks messy in terms of its writing. as in the word "I" is written in lowercase letters that should be uppercase, then there is the word "it's" which should be "its", then there is also a word that does not match the use of uppercase letters, in the word of Depressed. There is no visual context change in this change, as appraisers argue that character, model, elemental mix, is a matter of taste only. the important point is the clarity of the image and the suitability of the scene and the dialogue.

Picture 2.20 before and after revision

furthermore is the problem of consistency in the use of the word pronoun. in the first image shows "it's" , which is inconsistent with the continuation of the next round, which is better replaced with the word "I am, as is normal to be used when getting acquainted with others. There is no visual context change in this change, as appraisers argue that character, model, elemental mix, is a matter of taste only. the important point is the clarity of the image and the suitability of the scene and the dialogue.

Picture 2.21 before and after revision

next there is the problem of laying capital letters that do not fit in the sentence. the word "statement" should be written in all lowercase letters. There is no visual context change in this change, as appraisers argue that character, model, elemental mix, is a matter of taste only. the important point is the clarity of the image and the suitability of the scene and the dialogue.

Next is a fix to the same problem, namely the placement of inappropriate upper and lower case letters, inappropriate language settings, and some grammar errors that have been corrected. As for the other mistakes that go unnoticed by the writer and the assessment team is a human error that will continue to be developed.

## **B. Study Discussion**

In the discussion of this study, the writer is very grateful for all the struggles that the writer has gone through. all of them have had a positive impact on the mentality of the writer so that it can become a more resilient person. there are many things that make this study very memorable. many moments of moments that make the writer sometimes have to fall awake up several times, which sometimes makes the writer often have a desire to give up. but thanks to strong determination and support from mentors and family and relatives, I continued to progress in completing this study. by looking at different points of view, especially from previous research, certainly gives me a new view of the world of research so that my product was born, here will the writer present some basic concepts of previous researchers related. The Webtoon comic as the product of this research was designed using ADDIE model. This model stands for the five stages of the development process, namely Analysis, Design, Development, Implement, and Evaluate. These phases are sequential, each depends

upon the successful completion of the preceding phase. The design phase is the main point of action in this model. The product will be concluded by the model of the design, the development will get the main role of the design.<sup>16</sup>

In the previous research, Mahya Zuhrowati (2018) , The comic as a supporting media to give the illustration of the global warming material so the students can understand the process or the situation when global warming happens. The difference between her product with the writer are Mahya Zuhrowati has used a square form with the story on it while the writer has used the strip form.. The materials of the comic are different too. she used a Science while the writer used English Grammar material. The design and the Final product is different too. Her final product formed book while the writer using an online site or app called Webtoon or Web Comic. Feronika Cici Novisilta (2016). It was focusing to increase the Student's interest in learning Physics, and the Material is the concept of the substance. This comic have used the original character created by herself, just like writer. The difference between her comic with the writer are, she have used black and white style while the writer used colored style, she has used the capital letter while the writer has used sentence case style. The material of the comic is different too.

Hardianti (2017). Hardianti was focusing on making master student's vocabularies, especially in verb and Noun. She was focusing on Doraemon. The difference between hers and the writer are she has used an exist character which is Doraemon, while the writer using an original character. She has used a black and white style while the writer has used colored comic style, the final product is

different too, she has used a book form, while the writer has used the strip form with online provider. He has used an English material but focused on Vocabulary while the writer focused on Grammar.

Based on the result of need analysis conveyed by the researcher above, there are main components of the designed syllabus would be discussed as follows:

a. Learning Goal

Learning goal of this comic refers to Picture 6 As the result of the learning goal questions, the writer can conclude that students need a fun and comfortable way in learning using the Media in learning especially for the Visual and it refers too with figure 8,9,10 about comfortable way in reading and the result can conclude that they enjoyed the illustration in learning of reading.

b. Student's situation with technology

This is refers to Picture 9,10, and 11. the writer can conclude that the students are comfortable and know about technology well. It refers too with picture 10 that they already have the technology called Smartphone and laptop. So it helps them to use the technology easier in learning.

c. Media in learning

This one refers to figure 8 and 9. As the result, the students like the visual or picture more as the media in learning and they enjoy looking for the Information via the media called internet.

Here is the result from expert revision

1. The Rules in writing should be more concerned, and it was fixed.
2. The Consistency in the use of language should be considered, and it was fixed.
3. The media should be Explain how to use the application so that students are not experiencing confusion when using the app, and it will be explain in the class, also the writer has the using guide for the users.

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

#### **A. CONCLUSION**

The Webtoon Comic that is appropriate with the students with some items 1). The appropriate of the study of this Comic as the content of the webtoon was becoming the supporting media in learning English Grammar and it was suitable with the material that the students were learning about. 2). ### 3. Bahasa

| No | Dimensi    | Indikator | Item  | Skor | Tanggapan  |
|----|------------|-----------|---|------|--|
| 1  | Komunikasi | Panduan   | 4. Komik yang dibuat sesuai dengan kaidah bahasa Inggris yang Benar (Memuat pola aturan bahasa) | 4    | <p>1. Struktur tulisan yang ada pada Comic Webtoon ini secara umum sudah sesuai dengan standar kaidah penulisan bahasa Inggris yang benar, baik pada Prologue, pembukaan, contoh-contoh kalimat, dan penutup pada setiap Chapter (SVO Pattern).</p> <p>2. Terdapat sedikit kekurangan (dalam teori terjemahan) penulisan yang ada pada kalimat Greeting di Chapter 2 dalam Comic Webtoon tersebut. Sebagai contoh: Assalamualaikum guys, welcome back <u>again</u> with me. Kata again pada kalimat tersebut dalam teori terjemahan sekilas memang tidak ada masalah, namun “rasa” dari struktur kalimat tersebut bisa dikatakan “terlalu Indonesia” (kata again lebih baik ditempatkan di akhir kalimat).</p> |

|  |  |  |  |  |
|--|--|--|--|--|
|  |  |  |  | <p>Begitupun pada kata Delay dalam kalimat: Without further <u>delay</u> (delay dalam bahasa Indonesia artinya menuda, biasa dipakai untuk waktu/ jadwal sedangkan dalam konteks kalimat di atas Without futher delay dapat diartikan “tanpa basa-basi” sehingga Delay bisa kita ganti dengan kata Ado—without firhetr ado (jangan menerjemahkan bahasa secara harfiah saja, konteks juga perlu diperhatikan).</p> <p>3. Penggunaan huruf besar juga perlu diperhatikan (kata keep di bagian penutup (<u>keep it up</u>) setelah tanda titik, harus diawali dengan huruf besar). Penggunaan huruf besar pada kata and dalam kalimat: Alright, <u>And</u> now this is not...tidak sesuai dengan kaidah penulisan yang benar. Begitupun kata Fly dan These dalam kalimat: I like Butterfly when they <u>Fly</u> togheter, and <u>These</u> are so beautiful, dan kata Deeply</p> |
|--|--|--|--|--|

|  |  |   |   |  |
|--|--|---|---|--|
|  |  |   |   | dalam kalimat: I'm <u>Deeply</u> sorry... pada Chapter terakhir yang memakai huruf besar adalah bentuk penulisan yang keliru (masih banyak kata-kata lain pada contoh kalimat). <ol style="list-style-type: none"> <li>4. Penggunaan tanda baca pada Chapter 2 di Note: Don't copy his attitude. Love Your Stuff, and be more grateful. Bisa dirubah dengan memberikan tanda seru untuk <i>Imperative Sentence</i>: Don't copy his attitude! Love your stuff, and be more Grateful.</li> </ol> |
|  |  | 5. Komik yang dibuat sesuai dengan perkembangan bahasa Inggris yang ada pada saat ini | 4 | <ol style="list-style-type: none"> <li>1. Menurut saya pemilihan bahasa pada Comic Webtoon ini adalah inggris Amerika semi formal. Bahasa yang digunakan bukan jenis <i>Slang</i> Amerika tapi tetap memakai sedikit bahasa "gaul" yang dipadukan dengan gaya formal. Melihat dari tujuan pembuatan Comic ini adalah untuk pembelajaran bahasa Inggris dengan target pelajar/ mahasiswa, saya rasa sudah tepat penulis memakai</li> </ol>  |

|  |   |   |  |  |
|--|---|---|--|--|
|  |   |   |  | <p>model bahasa tersebut.</p> <ol style="list-style-type: none"> <li>2. Bahasa sapaan untuk pembaca Comic Webtoon telah mengikuti perkembangan bahasa Inggris Amerika untuk standar bahasa media (jurnalisme atau media sosial). kata “Guys” umum digunakan pada bahasa media diera sekarang oleh generasi Milenial untuk mengikat hubungan antara penulis dan pembaca, artis dan penggemar, atau selebgram dan pengikutnya.</li> <li>3. Saya sangat menyukai bahasa tematik dalam Comic Webtoon ini. Walaupun penulis menguunakan bahasa Inggris namun, ada beberapa kata dalam kalimat di setiap Chapter yang bertema Islami sesuai dengan kearifan lokal masyarakat Indonesia.</li> </ol> |
|  | <p>6. Bahasa yang digunakan bahasa yang jelas dibaca dan dipahami</p> | 4 |  | <p>1. Bahasa yang digunakan oleh penulis sudah cukup jelas untuk dibaca dan dimengerti. Namun, ada beberapa kata (pronoun) pada bagian Prologue yang</p>   |

|  |  |  |  |  |
|--|--|--|--|--|
|  |  |  |  | <p>tidak konsisten, seperti pada <i>Greeting/Introduction</i>: Hi there, <u>It's</u> Olin...dilanjutkan dengan tuturan berikutnya: <u>I</u> know this is not a thing....jadi subjeknya It atau I? Jika anda memakai It pada bagian perkenalan maka karakter Olin seolah-olah bukan karakter yang mandiri, ada orang ketiga yang memperkenalkan Olin, contoh: Hi it's my friend, saya memperkenalkan teman saya, bukan teman saya yang memperkenalkan dirinya. Berbeda kalau saya langsung memakai subjek I, contoh: Hi there, I'm Olin (Olin memperkenalkan dirinya secara mandiri) sebagai karakter utama dalam cerita.</p> <p>2. Selanjutnya adalah konsistensi pada prologue untuk sapaan bagi Reader, contoh: Hi there, bisa langsung diganti dengan Hi Guys, atau sapaan yang anti mainstream lainnya seperti Felas</p> |
|--|--|--|--|--|

|  |  |  |  |  |
|--|--|--|--|--|
|  |  |  |  | (bahasa Brand atau Identity)   |
|  |  |  |  | <p>3. Penggunaan diksi pada kata Chapter di judul bagian atas sudah tepat untuk sebuah komik, tetapi penggunaan kata Episode di bagian penutup sangat tidak sesuai karena Episode umum dipakai pada video/film.</p> <p>4. Penggunaan diksi/ pilihan kata yang saya temui hampir di setiap penutup (pada akhir Chapter) juga perlu diperhatikan. Contoh: Thank you for reading guys, I hope it helps you in learning. Keep it up <u>until</u> you can master your English. Pemilihan kata until lebih cocok diganti dengan kata till (silahkan cari apa bedanya) agar terkesan tidak terlalu kaku dan sesuai konteks.</p> |

TABEL PENILITIAN

| No  | Item/pertanyaan   | Score | Keterangan / tanggapan  |
|-----|---|-------|---|
| 1.  | Penyusunan komik Rapi dan nyaman dilihat baik dari sudut pandang Smartphone ataupun Komputer  | 4     | lumayan   |
| 2.  | Komik disusun dengan tulisan yang dapat dibaca dengan baik dan jelas  | 4     | Sudah jelas   |
| 3.  | Komik yang dibuat dapat diakses dengan baik tanpa ada kendala system yang berarti.  | 3     | Komik ini tdk terlalu berat tapi jika system yg digunakan tidak dipahami oleh user aka bisa saja itu jd kendala       |
| 4.  | Advertisement atau iklan dalam aplikasi tidak memberikan gangguan yang berarti pada saat mengakses komik dalam aplikasi maupun website langsung   | 4     | sedikit   |
| 5.  | Aplikasi dan website dapat dimuat dan diakses dengan mudah.   | 4     | Perlu diberi penjelasan di halaman utama mekaisme penggunaan atau bagaimana memulai/ menggunakan webtoon ini          |
| 6.  | Aplikasi tidak berbahaya ataupun mengandung efek negative terhadap perangkat mobile ataupun komputer.   | 5     | Tidak berpengaruh   |
| 7.  | Kekurangan dari komik dan aplikasi ini adalah perlunya diakses melalui dalam jaringan (daring) atau online, apakah menurut anda itu kendala yang sangat berarti?  | 5     | Namanya juga webtoon,jika tanpa jaringan,maka namanya hanya komik saja  |
| 8.  | Aplikasi memerlukan identitas pengguna seperti E-mail, Facebook ataupun akun Line untuk dapat mengakses layanan lebih dalam aplikasi, menurut anda apakah hal tersebut berbahaya bagi privasi pengguna? | 4     | Setiap akun bisa saja diretas walau tanpa melalui webtoon ini   |
| 9.  | Aplikasi dijadikan media dalam pembelajaran berbasis online, menurut anda apakah ini hal yang positif di jaman sekarang?  | 4     | Sejauh ini iya, namun alangkah baiknya karakter yg ditampilkan oleh tokoh komik lebih kelihatan seorang pemuda muslim |
| 10. | Aplikasi ataupun website mudah untuk digunakan.   | 4     | Ini relatif krn kurang petunjuk di awal bagaimana menggunakan webtoon ini untuk pembelajaran                          |
