CHAPTER I

INTRODUCTION

A. Background

Vocabulary is one of language elements and all about words or a special set of word we are trying to learn. According to Alqahtani (2015) vocabulary is a set of word that are used for communication and one can convey the information that submitted so it is very important to learn vocabularies.¹ Vocabulary is the basic access to a language. And there would not be language structures. Without words, there would not be language structure.²

Vocabulary learning is the heart of language learning and language use. In fact, it is what makes the essence of a language. Without vocabularies, speaker cannot convey the meaning and communicate with each other in a particular language.³ Vocabulary should be learned because we can construct or organize our ideas in the sentences and process of some information through vocabulary mastery. According to Harmer, vocabulary as incidental to main purpose of language teaching.

Therefore, it would be more proper if the teachers have a good strategy or method to teach. Otherwise, they should be creative in improving students' vocabulary as well. The fact shown that the results the observation at 8th grade students, the teacher is monotonous in teaching, the teacher is not creative to provide

learning method and media of learning so that the students feel lazy and bored in following the learning English process.

Based on the explanation above, the researcher interested to conduct a research in teaching vocabulary through Fly Swatter Game to improve students' vocabulary.

One of the ways to teach vocabulary that can make students motivate to learn English by using the suitable strategy, such as games. According to Rini (2012), Using the games to teach vocabulary brings some benefit, the students can memorize vocabulary easily and the students can play a game wherever they want.

⁴ The use of games not only will change the dynamic of class but also help students study easily. the teacher can make interactive learning environment, the teacher tries to introduce more games and activities. The teacher changes shapes and manipulates both language and environment, the better circumstance for students. Games allow students to work cooperatively, compete with other strategy in different way, work in stressful and more productive environment and allow students to have fun.

Lubis (2017), One of game that can improve the students' vocabulary fly swatter game. Fly swatter game is a game where the students have to get the word in the blackboard by using the teacher's instruction. Ideally if the students can play many games in English their vocabulary will be up. It can been seen from less vocabulary that they have memorize and they are not able to mention the meaning of simple vocabulary. That is why the researcher conduct research

CHAPTER II

REVIEW OF RELATED LITERATURE

A. Previous Studies

Some researcher conducted their research on the use of various techniques in teaching vocabulary:

Silaban's and Andriani's research (2017), entitled "Using Fly Swatter Game to Improve Students Vocabulary Mastery at Grade Eight SMP Dwi Sejahtera Pekanbaru"⁵The problems were most students lack vocabulary, could not easy to memorize the word, bored of monotone method. Silaban's and andriani's applied classroom action research (CAR) there were 30 students as participants. The instruments were test, observation, field note, and interview as the instrument. the improvement was influence by some factors such the students' enjoy in every single step, could make the students active. Score students vocabulary in verb was 21,17 it means students' vocabulary in verb already good. The students' vocabulary in noun already good. Students' vocabulary in adjective already good. And the students vocabulary in adverb already good. There were 29 students could pass the passing grade and than 1 students still fail. This indicates that that by applying " fly swatter" game, the students vocabulary can be improved significantly.

⁵Antri Lilin Ima Silaban and Refika Andriani, *Using Fly Swatter Game To Improve Students Vocabulary Mastery at Grade Eight SMP Dwi Sejahtera Pekanbaru* (lancang kuning university) jurnal pendidikan, vol 4, no 2, Agustus 2017

Nurjanah(2015), research entitled “The Influence of Fly Swatter Game on Improving Students Vocabulary of MTS Ma’arif Cikedung”⁶. The problems when students should remember many words. Nurjanah’s conducted test (pre-test and post-test) to collect the data. Then the data will be analyzed descriptive statically and inferential statistically data. The sample t-test is used, the data is comes from different group. Finding shows the t-test result is 1.823, degree of freedom is 38 with the number of t-table 5% is 1.69. the score > t table ($1.823 > 1.69$) so H_0 is rejected and H_a is accepted. It means that there is significant influence of the application of the fly swatter game to improve vocabulary of Mts Ma’arif Cikedung.

Ika Rahmadani Lubis (2017), research entitled “Improving students vocabulary mastery by using fly swatter game of MTS Persatuan Amal Bakti (PAB) 1 Helvetia”⁷the research was conducted by using classroom action research (CAR). The data were gathered through qualitative and quantitative data. Then quantitative data were obtained from the students’ vocabulary score of pre-test, post-test, and questionnaire. From the mean score of pre test were 53,3 the mean score of post test 1 was 70.9, and the mean score of post-test cycle 2 was 83.5. there were 4 students (8.16%) who passed minimum mastery criteria – (KKM), in the pre-test. In the cycle 1, there were 27 students (55.1%) who passed minimum mastery criterion, and it gained which was in the post-test cycle 2 there were 42

students (85.7%). The mean of pre-questionnaire was 47.09%. then, the mean of post-questionnaire was 94.8%. it improved 47.71%. Based on the previous finding above, the researcher concludes that the using of interesting technique in teaching vocabulary can stimulate and improve students' vocabulary. It motivates the researcher to use another technique, which is fly swatter game technique. This technique will make students easier and more effective to improve their vocabulary.

The differences between the research and the previous research above are :

- (1). In the first the researchers Silaban's and Andriani's used the instruments such as : test, observation, field note and instrument. while the researcher will uses test and observation.
- (2). Nurjanah used experimental research, while the researcher uses CAR (Classroom Action Research) and nurjanah only used test as her instrument of the research and the researcher while test and observation as her instrument.
- (3). Lubis used questionnaire to get data, while this research doesn't it use questionnaire to get data. Lubis ^{chose} the sevens grade students of junior high school as her sample while the researcher choses the eight grade student as her sample.

B. Vocabulary

1. The Definition of Vocabulary

Vocabulary have certainly found in every aspect of language. The importance of vocabulary can influence learning activity. Vocabulary can help learner to express their ideas and information. Without vocabulary, learner cannot understand about the information that they learnt. In other words, learner should have many vocabularies in order to achieve their competencies.

According to Bauer (1998), vocabulary is about words with the origin, alteration, and relationship to other words so that people used in a language on the world.⁸

Luckner and Cooke (2010), revealed that vocabulary is the main thing that is used to perform various activities like communicating with others, read books, and learn, without the vocabulary it is difficult to do or cannot do. Like the faculty and students cannot be mutually-related absence as a university lecturer and students make the learning process, vocabulary as well as the most important thing to do everyday activities. Without a sufficient vocabulary, someone cannot communicate effectively or express ideas because we think with word.⁹

Penny Ur (1991) revealed that vocabulary can be defined, roughly, as the words we teaching in the foreign language. However, a new item of vocabulary may be more than a single word: for example, post office and mother-in-law,

⁸ Laurie Bauer. Vocabulary. (USA: Routledge, 1998). p. viii.

⁹John Luckner and Christine Cooke, *A Summary of the Vocabulary Research With Students Who Are Deaf or Hard of Hearing*, *Journal of American Annals of the Deaf* Vol.155, No.1 2010, p.38

which are made up of two or three words but express a single idea.¹⁰ Schmitt also stated that avoid it must consider what we meant by vocabulary.¹¹

2. Kinds of Vocabulary

According to Scrivener (1994) : 74) there are two kinds of vocabulary, they are receptive vocabulary and productive vocabulary. Receptive or passive vocabularies are words that the students' recognize and understand when they occur in a context, but which they cannot produce correctly it means in reading or listening. On the other hand, productive or active vocabulary is the set of words that students' recognize and understand, can pronounce correctly and use constructively in speaking and writing.¹²

Thornbury (2002: 3-10) says that there are six kinds of vocabulary, they are:

a. Word classes

Word classes or part of speech. They are divided into eight classes, such as: noun, pronoun, verb, adjective, adverb, preposition, and determiner.

1). Nouns

Nouns are the names of person, thing, or place. Noun can be the subject of the sentence, object of the verb and object of preposition. The example of nouns are Adam Malik, Muhammad Ali, table, door, Indonesia, Australia and etc. There are types of noun as follow:

(a). Countable Noun

¹⁰Penny Ur, *A Course in Language Teaching*, (Cambridge; Cambridge University Press, 1991), p. 60

¹¹Norbert Schmitt, *Vocabulary in Language Teaching*. (Cambridge: Cambridge University Press, 2000), p. 1.

¹²Jim Scrivener, *Learning teaching*. Oxford : Heineman, 1994

Countable noun can usually be made plural by the addition of -s.

For example: *Harris painted the **door** blue and the **chairs** green*

(b). Uncountable Noun

Uncountable noun is a noun which does not have a plural form and this refers to something that could not count.

(c). Proper Noun

Proper noun is a noun that is written with capital letter, since the noun represents the personal name, names of geographical units such as countries, cities, rivers, etc. The name of nationalities and religions, names of holidays, names of time units and words used for personifications.

For example: Bobby doesn't like **Monday**

Muhammad is the last prophet.

(d). Common Noun

Common noun is a noun referring to a person, place or thing in general sense : usually we should write it with capital letter when it begins a sentence.

(e). Concrete Noun

Concrete noun refers to objects and substances, including people and animals, physical items that we can perceive through our senses, it means concrete nouns can be touched, felt, held, something visible, smell, taste, or be heard.

For example : *The **bread** was eaten by Sarah.*

My parent spent their holidays in **Puncak**

(f). Abstract Noun

Abstract noun is noun which names anything which can't perceive through physical sense.

For example : *Maria has high **imagination** about her future.*

(g). Collective Noun

Collective noun is noun which describe groups, organization, animals, or person.

For example : ***The** committee of tennis meets every Sunday.*

(h). Noun Plural

Most of nouns change their form to indicate number by adding -s/ -es.

For example : *Yesterday, I gave two **books** for my sister.*

2). Pronouns

Pronouns are words that are used to replace a person or thing.

For example : I, you, we, they, he, she, it.

3). Verbs

Some examples of verb are like, looking, doing, help and other.

4). Adjectives

Adjectives are words that are used to explain or modify a person, place, or thing.

For example : old, new, beautiful, good, handsome, and etc.

5). Adverbs

Adverbs are word that used to describe verb adjectives or adverbs.

For example : beautifully, upstairs, now, ago and so on.

6). Preposition

Preposition are words that are used with a noun or pronoun that are placed in front of them to show a relation between these words with another part of the sentence. They are : at, on, in, into, from, of, and etc.

7). Conjunctions

Conjunctions are words that are used to connect word on a group of words or sentences. Conjunctions are usually used in the adverbial clause.

For example : although, as, if, for, because, and others.

8). Determiner

The determiners-words like “a”, “the”, “some”, “this”, “last”. To make easier in learning, Thornbury divide them into two groups; they are grammatical words consist of preparations, conjunctions, determiners, and pronouns. On the other hand, content words are usually nouns, verb, adjectives and adverbs. Grammatical words belonged to the domain of grammar teaching, while the teaching of vocabulary was more concerned with content words.

b. Word families

It discusses about affixation of a word, such as : prefixes (pre-, de-) and suffixes (-er, -ful).

c. Word formation

Affixation is one of the ways new words are formed from old. Another ways are :

1). Compounding

Compounding is the combining of two or more independent words (second-hand , word processor, paperback, typewriter and so on).

2). Blending : information + entertainment = infotainment; breakfast + lunch = brunch and etc.

3). Conversion : I always Google every information. (Google is noun, and then it is converted into verb).

4). Clipping : electronic mail email; influenza flu.

5). Acronym

Acronym is the result of forming a word from the first letter or letters of each word in a phrase. It often name political, industrial, and social organization.

For example :

VIP – Very Important Person

WHO – World Health Organization

NASA – National Aeronautics And Space Administration

6). Coinings

Coinings are pure creations of writers, investor, scientists and others who are in need of a term to express a given meaning or to name an item or product.

For example : *Kodok, Aspirin, Vaseline, Zipper, Tipp-ex.*

b. Multi-word units

1). Phrasal verbs : look, for, look after, wipe, off, and throw on and so on.

2). Idioms : famous last word, jack me around.

c. Collocations

Two words are collocates if they occur together with more than chance frequency. Example : this week, once more, once again, aswell.

d. Word meaning

1). Synonym

Synonym is words that share a similar meaning.

For example :

Sadness = Unhappiness

Gratefully = Thankfully

2). Antonym

Antonym is a word expressing an idea directly opposite to that of another word in the same language .

For example : *accept* > *refuse*

3). Homonym

Homonyms are words that share the same form but have unrelated meanings, such as : well, hat, shed, left, fair, etc, homophones literally : same sound are spelt differently : *horse* and *hoarse*, *meet* and *meat*, *tail* and *tale*, aloud and allowed.

4). Homographs

Homographs are words that are pronounced differently but spelt the same : *a live concert*, but where do you *live* ? Based on Thornbury (2002: 8) stated that, homonym is words that share the same form but have unrelated meaning.

For example :

Like – I like looking the sunset

*Its look like new.*¹³

¹³ Scout Thornbury, *How to Teach Learning Vocabulary*. Pearson (Education limited 202: 3-10)

3. Teaching Vocabulary

The teaching of vocabulary is not easy to do because we need to pay attention how people are likely to learn words. Alqahtani said that Teaching vocabulary is one of the most discussed parts of teaching English as a foreign language. When the teaching and learning process takes place, problems would appear to the teachers. They have problems of how to teach students in order to gain satisfying results. The teacher should prepare and find out the appropriate techniques, which will be implemented to the students. A good teacher should prepare himself or herself with various and up-to-date techniques. Teachers need to be able to master the material in order to be understood by students, and make them interested and happy in the teaching and learning process in the classroom.¹⁴

The English teachers had better teach English vocabulary first than other aspect of this language, such as grammar, speaking, reading and writing. If students know more vocabulary, it will be easy for them to learn another aspect of English language. Students should have a good idea of how to expand their vocabulary so that they can improve their interest in learning the language. therefore, should process considerable knowledge on how to manage an interesting classroom so that the learners can gain a great succes in their vocabulary learning.

Wallace in Nilawati also gave several principles to manage and to learn vocabulary, such as:

¹⁴Mofareh Alqahtani, op.cit, p.24

1) Aims

The aim of teaching vocabulary is to make the teacher easy to formulate the materials, which will be taught to the students.

2) Quantity

The teacher has to decide the number of vocabulary items to be learned. The learners will get confused or discouraged if they get many new words. Therefore, the teacher should select new words, which can be easily understood by the learners.

3) Need

In teaching vocabulary, the teacher has to choose the words really needed by the students in communication.

4) Frequent exposure and repetition

Frequent exposure and repetition here means that the teacher should give much practice on repetition so that the students master the target words well. They also give opportunity to the students to use words in writing or speaking.

5) Meaningful presentation

In teaching vocabulary the teacher should present target words in such a way that the meaning of the target words are perfectly clear and unambiguous.

6) Situation and presentation

The teacher tell the students that they have to use the words appropriately. The use of words depends on the situation in which they are used and depends on the person to whom they are speaking.¹⁵

4. The Nature of Noun and Verb

1. Definition of Noun

Noun refers to persons, animal, places, things, ideas, or events. for example : Mr. Simon, betty, boy, girl, London, japan, sea, money, Sunday, mathematics, football, house.

-Mr. Bolong is from japan.

- I am a teacher.

2. Types of noun

1). Common noun : A common noun is a noun that refers to people or things in general, for example : Book, teacher, river, table, chair, mountain.

2). Proper noun : A proper noun is a name which refers only to a single person, place, or thing and there is no common name for it. In written English proper noun always begins with capital letters.

For example :

- Anti (People name)
- Indonesia (Country name)
- Palopo (City name)
- Cokroaminoto University (School name)
- Danone (Company name)

¹⁵ Sofika Chandra Nilawati, *The Effectiveness of Teaching Vocabulary*, A Thesis (Semarang: UNNES 2009), p.11

3). Collective noun : Collective noun is a word for a group of things, people or animal.

For example : - a posse of policemen

- a band of musicians

- a troupe of dancers

People

Animal

- a flock of birds

- a nest of mice

- a swarm of bees

- a bunch of bananas

- a pack of cards

- a group of island

Things

4). Compound noun : Compound nouns refer to two or more nouns combined to form a single noun, for example : sister – in – law , fruit juice, schoolgirl.

5). Concrete noun : A concrete noun is a noun which refers to people and to things that exist building, dog, tree, rain, tune, beach.

6). Abstract noun : an Abstract noun is a noun which refers to ideas, qualities, and conditions things that cannot be seen or touched and things which have no physical reality, for example : truth, happiness, friendship.

7). Countable noun : countable nouns have a singular and plural form. In plural, these nouns can be used with a number – they can be counted.

a. Can change into the plural form

Example : - I have an *English boo* → I have two *English books*

- John gets *a present* → John gets *three presents*

b. Can be used with word (article) : *a, an* = singular, *the* = singular and plural.

Example : - A dog is *an* animal → singular (*a, an*)
 - *The vase is on* the table → singular (*the*)
 - *The students are* clever → plural (*the*)

c. Can be used with word *all of* (semua), *none of* (tidak satupun), *both of* (keduanya), or *few* (beberapa) in plural form.

Example : - *All of people* should take care their health
 - *None of* students forget their homework

d. Can be used with word *some* (beberapa) or *any* (sedikit) in plural form.

Example : - You need to read *some books* → some (+)
 - Do you have *any questions* ? → any (-, +)

e. Can be used with word many (banyak), *a lot of* (banyak), *several* (beberapa), or *great many* (banyak) in plural form.

Example : - There are *many people* come to post office today
 - She has *a lot of* students in her class

8). Uncountable noun : Uncountable noun can only be used in singular. They can't be counted. For example : money, water, bread, coffee.

3. Verb

A verb is doing word that shows an action, an event or a state. A sentence may either have a main verb, a helping verb or both. In other words, a verb is word that informs about an action, an existence of something or an occurrence. The verb is the main word in a sentence.

4. Types on verb

1). Action verb there are two part transitive verbs and intransitive verbs

a. Transitive verbs have a definite object on which, or for which the action is being performed.

Example :

- Rose is **painting** the kitchen walls.

- Hannah **gave** him a big hug.

b. Intransitive verbs also show action but here there is no specific object on which the action is being done.

Example :

- Rose is **painting** right now.

-Hannah **sneezed** repeatedly.

2. Dynamic verbs

Dynamic verbs denote an actual action or expression or process done by the subject.

Example :

- She **buys** new clothes every week

-He is **swimming** at the beach

3. Stative verbs

Stative verbs tell us about the state of mind of the subject, or the relation between the subject and the object.

Example :

- She **prefers** strawberry jam.

- The cupboard **requires** a new coat of paint.

4. Linking verbs

Linking verbs connect the subject to a noun or adjective that helps in describing or providing additional information about the subject.

Example :

- Lisa **is** fussy about food.
- They **are** stubborn children.
- the students **felt** relieved. – the students are relieved
- Every students **felt** the relief. – Every student is/am/are the relief.¹⁶

C. The Concept of Fly Swatter Game

1. Definition of Game

In the German language a game is any activity which is executed only for pleasure and without conscious purpose. In this definition every activity that brings pleasure is a game. For example, people dance, play music instrument, act in plays and play with dolls and model trains.¹⁷

Game is player contest that have interaction one another by followed certain roles to get certain purpose.

Game has four components, namely

¹⁶ Rusdiana Junaid, *Fundamental English: Dasar-dasar Penguasaan Bahasa Inggris* (Malang, Intimedia. 2014)

¹⁷[http://www. The Games Journal.com/articles/what is a game.html](http://www.TheGamesJournal.com/articles/what_is_a_game.html). Accessed on January 4th 2019.

- a. Player
- b. Place
- c. Role
- d. Purpose¹⁸

Game as educational aid has benefits, as follows:

- a. Game is thing that interest to be done. Game will be interesting since it more compete and challenge.
- b. The game can lead the students to learn actively. As we know, a good learning is active learning. The students are full of interaction. On other hand teacher can be a good facilitator.
- c. Game can involved learner effectively in process. Learner interaction will not appear. Skill will get through game will be easier to apply in real activity than the skill we get through common learning expalanation. It can be happened because game give chance to learners practicing real action, not just discuss.
- d. Game can give direct feedback.

2. The Importance of Game

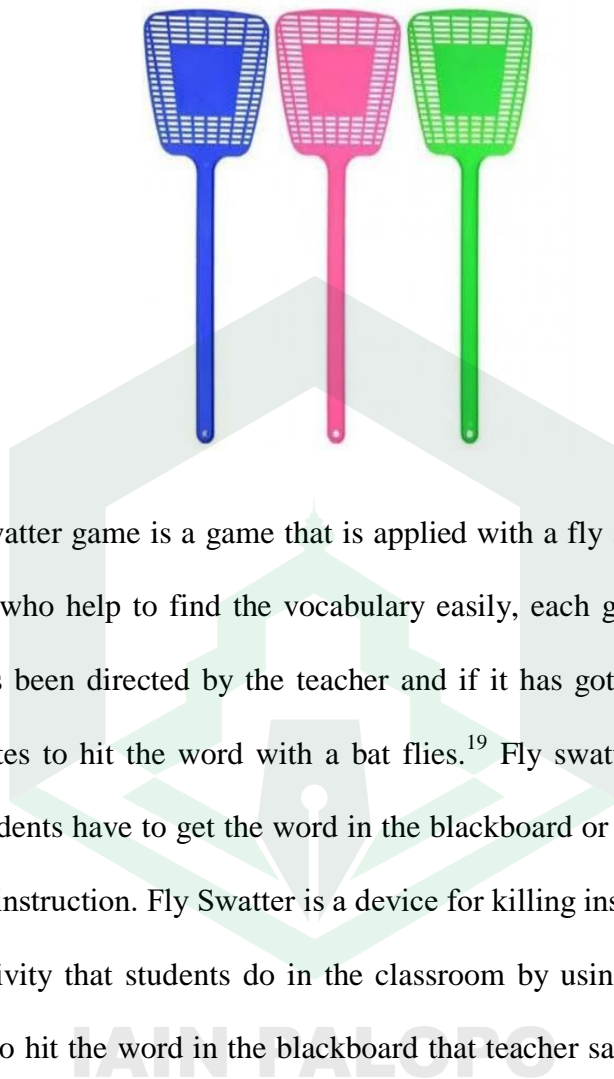

Learning a new language can be a difficult course. However, the reward is being able to communicate with a whole new country or culture of people. The process of learning a new language takes time. It is a challenge. In the past, many new language were taught in a traditional, direct translation, lecture format, now, new thories, methods, and strategies are being adobted into language learning programs.

¹⁸Arif Sadiman, et.all., *Media Pendidikan*. (Jakarta, PT. Raja Grafindo Persada. 1996) p.77

Learning a new language should be fun, interactive and exciting. The use of game in a learning environment will not only change the dynamic of the class, but it will also rejuvenate students and help the brain to learn more effectively. The brain is a muscle just like any other. It needs to be worked out, tested and put into competitive situations. The more exciting and interactive a teacher can make the learning environment, the more a teacher tries to introduce games and activities, the more a teacher changes shapes and manipulates both the language and the environment, the better the circumstance for learners. Games allow students to: work co-operatively, compete with each other, strategize, think in a different way, compare and share knowledge, learn from other, learn from mistakes, work in a less stressful and more productive environment, and allow people to have fun.

Learning a new language should be a fun and challenging experience. So when you take the challenge to learn a new language, enjoy it. Have fun, smile a lot, make new friends, talk a lot and play a lot of games.

3. Definition of Fly Swatter Game

Fly swatter game is a game that is applied with a fly swatter that involves some people who help to find the vocabulary easily, each group has to find the word that has been directed by the teacher and if it has got the word then each group competes to hit the word with a bat flies.¹⁹ Fly swatter games is a game where the students have to get the word in the blackboard or whiteboard by using the teacher's instruction. Fly Swatter is a device for killing insects.²⁰ Fly swatter is a kind of activity that students do in the classroom by using of fly swatter that students use to hit the word in the blackboard that teacher says before.²¹ Besides, according to Rezkihah, fly swatter game is a game where the students have to get the word in the blackboard by using the teachers' instruction. This game helps the students to improve their sight-word dictionary and it can be a very valuable tool. In this game, students are encouraged to be active and creative in finding words

4. Procedure of Using Fly Swatter Game

Source : ESL Games for Teachers.the procedures are follows:

1. The researcher Print out words or pictures and glue them to a big poster.
2. The researcher attach the poster paper to the board with glue.
3. The researcher divide the students in two groups
4. The researcher asked each group to have one member from each team come to the blackboard and hand them each hold a fly swatter.
5. The researcher ask the students stand with their backs towards the blackboard.
6. The researcher give instruction to the students names of the words or pictures on the board and the students race to swat it with the fly swatter.
7. The students have to say what is the meaning of that word or picture. After that, both of the students sit down and change with two new students from each groups.

5. Advantages of Using Fly Swatter Game

There are several advantages of using fly swatter game for student vocabulary mastery. The advantages include:

1. It is not use a monotonous activity.
2. It is fun for students.
3. It helps them learn and acquire new word easily.
4. It involves friendly competition and keeps students interest.²³

5. It serves students to learn pronouncing
6. The students more active then teacher.

6. Disadvantages of Using Fly Swatter Game

There are several disadvantages of using fly swatter game for student improving vocabulary . The disadvantages include:

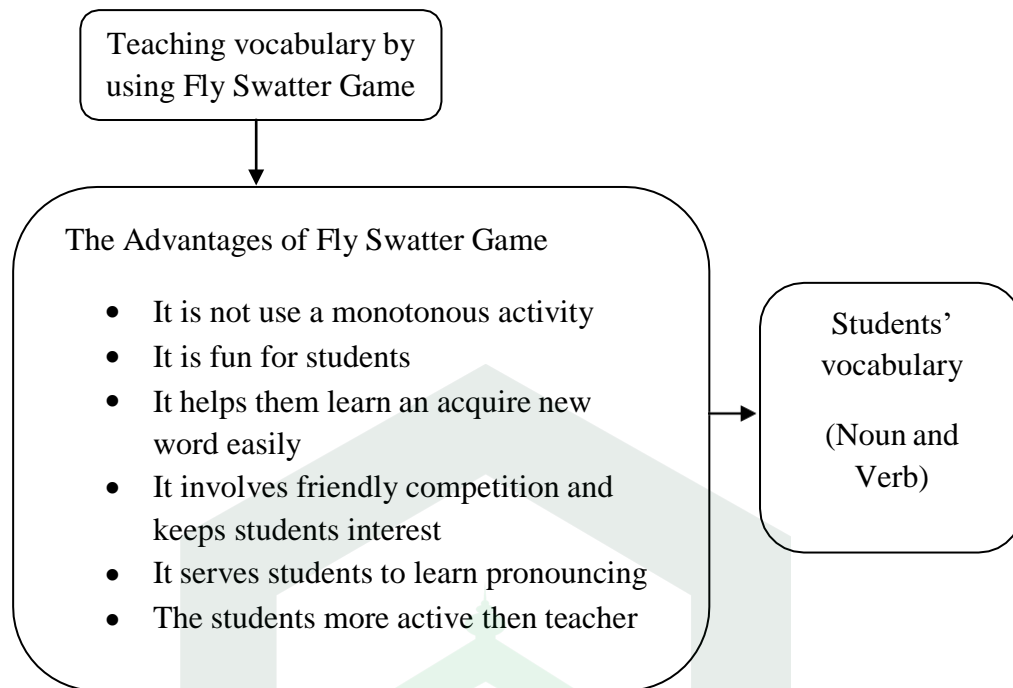

1. Needs more preparation for the teacher for time allocation, such as time for divide a group.
1. The class noisy.
2. Some students do not care when some students play the games.

D. Conceptual Framework

Vocabulary is one of problem in mastering English especially at the eighth students of SMP 8 Palopo. There are many games to teach vocabulary, one of game is Fly Swatter. Where this game can help students and will be easy to learn vocabulary. Fly Swatte Game is a game that is applied with a fly swatter that involves some people who help to find the vocabulary easily, each group has to find the word that has been directed by the teacher and if it has got the word then each group competes to hit the word with a bat flies.

Based on the statement above, the researcher focuses on teaching vocabulary by using Fly Swatter Game. In this research will be given pre-test to know increasing vocabulary of the students in English before giving treatments. After that, they will be given some treatment as a process of learning vocabulary by using Fly Swatter Game.

Conceptual framework in this research is shown in the diagram as follows:

E. Hypothesis

The hypothesis is controlling all the research activities ranging from sample selection, preparation of instruments, data management to the statistic that should have predictive value and be consistent.²⁴

H_0 : Fly Swatter Game is not significant to learning vocabulary.

H_1 : Fly Swatter Game is significant to learning vocabulary.

CHAPTER III

METHOD OF THE RESEARCH

A. Research Design

The research design used in this research was pre-experimental design with one pre text and post text design. In this chapter the discussion deals with research design, research variable, operational definition, sample instrument of the research, procedure of collecting data and technique of data analysis. This design was as follows:

Experimental	Pre-Test	Treatment	Post-Test
Group	X	T	Y

Where :

X = Pretest

T = Treatment

Y = Posttest

The observation did before treatment called pre-test (X_1) and second was after treatment called post-test (X_2).¹ If the result of post-test is better than pre-test, it means the program is significant. If the result of post-test is similar to pre-test it means that the program is not significant.

¹ Nasution, “*Metode Research;Penelitian Ilmiah*,” (Jakarta : PT. Bumi Aksara. 2001), p.30

B. Population and Sample

1. Population

Population is bulk of to amount to element, this element can as individual, family, social's group, organization and others.² The population of this research was the eighth grade students of SMPN 8 Palopo in academic year 2018/2019, Total number of population was 210 Students.

2. Sample

Sample one part of population which is reached that have character that equals population. The technique which the researcher used in this research is purposive sampling technique, the researcher chose 26 students as her sample.

C. Variable

There are two variables in this research. The variables are:

1. The independent variable is using fly swatter game.
2. The dependent variable is the students' vocabulary achievement.

D. Instrument of the Research

To collect the data, the researcher used vocabulary test. The test was used to find out the ability of the students in learning vocabulary by using fly swatter game through pre-test and post-test.

E. Procedures of Collecting Data

The procedures of the collecting data in this research were as follows:

² Nana Sudjana dan Ibrahim, *Penelitian dan Penilaian Pendidikan*, (Cet, I; :Bandung, 1989), p. 84

1. Pretest

The researcher gave the vocabulary test to the students. In this test, the students were asked to answer the test. The test was in the form of multiple choice and matching the words. It took 45 minutes to finish it.

2. Treatment

The researcher carried out the class in five meeting in giving treatment, for the students.

a. The First Meeting

- 1) The researcher introduced herself to the students.
- 2) The researcher divided students into two groups
- 3) The researcher asked each group to have one member come to blackboard and hand them each a fly swatter game
- 4) The researcher asked the students stand with their backs towards the blackboard
- 5) The researcher gave instruction to the students, names of the words on the board and the students race to swat it with the fly swatter.
- 6) The researcher said what the meaning of that word is. After that, both of the students sat down and changed with two new students from each groups
- 7) After that, the researcher corrected their answers.

b. The Second Meeting

- 1) The researcher came to the class and handled the class
- 2) The researcher divided students into two groups

- 3) The researcher asked each group to have one member come to blackboard and hand them each a fly swatter game
- 4) The researcher asked the students stand with their backs towards the blackboard
- 5) The researcher gave instruction to the students, names of the words on the board and the students race to swat it with the fly swatter.
- 6) The students have to say what the meaning of that word is. After that, both of the students sit down and change with two new students from each groups
- 7) After that, the researcher corrected their answers.

c. The Third Meeting

- 1) The researcher divided students into two groups
- 2) The researcher asked each group to have one member come to blackboard and hand them each a fly swatter game
- 3) The researcher asked to the students stand with their backs towards the blackboard
- 4) The researcher gave instruction to the students, names of the pictures on the board and the students race to swat it with the fly swatter.
- 5) The students have to say what the meaning of that picture is. After that, both of the students sit down and change with two new students from each groups
- 6) After that, the researcher corrected their answers.

d. The Fourth Meeting

- 1) The researcher divided students in two groups
- 2) The researcher asked each groups to have one member come to blackboard and hand them each a fly swatter game
- 3) The researcher asked to the students stand with their backs towards the blackboard
- 4) The researcher gave instruction to the students, names of the pictures on the board and the students race to swat it with the fly swatter.
- 5) The students have to say what the meaning of that picture is. After that, both of the students sit down and change with two new students from each groups
- 6) After that, the researcher corrected their answers.

3. Posttest

The posttest distributed to the students after treatment. The researcher evaluated the students with same test material in the pretest. This text aimed at finding out the students development on vocabulary after giving the treatment.

F. Data analysis Technique

Before analyzing the data, the researcher collected the data and analyzed them by using procedures as follows:

1. Analyzing the raw data of the pretest. Each of the students' correct answer got 1 and the wrong answer got 0.

2. Raw score were converted to a set of core maximum of 100, using the following formula :

$$\frac{\text{The total of the students' correct answer}}{\text{the total of items}} \times 100$$

3. Converting the score of the students into values.
4. Classifying the score of the students into the following score classification
- a. The score 96-100 as excellent
 - b. The score 86-95 as very good
 - c. The score 76-85 classified as good
 - d. The score 66-75 classified as average
 - e. The score 56-65 classified as fair
 - f. The score 36-55 classified as poor
 - g. The score 0-35 as very poor.³
5. Calculating the mean score, standard deviation, frequency table and test between vocabulary achievements of the experimental by using SPSS 20 for windows evaluation.

CHAPTER IV

FINDINGS AND DISCUSSION

This chapter explains about finding and discussions result of the researcher that shows the realities and comparisons between pre-experimental.

A. Findings

In collecting data, the researcher used test namely pretest and posttest. The results were presented in the following table.

Table 4.1. The score of students' Pre-Test and Post-test

Students	Pre-Test	Post-Test
R1	67	90
R2	70	86
R3	70	80
R4	70	80
R5	93	100
R6	76	83
R7	87	93
R8	66	93
R9	70	86
R10	56	80
R11	60	80
R12	66	70
R13	76	87

R14	70	87
R15	70	80
R16	67	73
R17	63	80
R18	60	90
R19	67	80
R20	70	90
R21	63	90
R22	67	73
R23	77	86
R24	80	90
R25	73	90
R26	60	77

Based on table 4.1 above, the researcher concluded that the lowest score and the highest score from 26 students in the pre-experimental. In pre-experimental the lowest score the pre-test was 56 and the highest score was 93. Then the lowest score the the post-test was 70 and the highest score was 100.

Table 4.2. Frequency and percentage of students' pre-test and post-test

NO	Classification	Score	Pre-Test		Post-Test	
			Frequency	Percentage	Frequency	Percentage
1	Excellent	96-100	-	0%	1	4%
2	Very Good	86-95	2	8%	13	50%
3	Good	76-85	4	15%	8	31%

4	Average	66-75	14	54%	4	15%
5	Fair	56-65	6	23%	-	0%
6	Poor	36-55	-	0%	-	0%
7	Very Poor	0-35	-	0%	-	0%
Total			26	100%	26	100%

Table 4.2 showed the data of the pre-test in the pre-experimental class. There were 2 students (8%) classified as very good, 4 students (15%) classified as good, 14 students (54%) classified as average and 6 students (23%) classified as fair. While the data post-test were 1 student (4%) classified as excellent, 13 students (50%) classified as very good, 8 students (31%) classified as good, then 4 students (15%) classified as average.

Table 4.3. The mean score of students' pre-test and pos-test

Descriptive Statistics					
	N	Minimum	Maximum	Mean	Std. Deviation
Pretest	26	56	93	69.77	8.267
Posttest	26	70	100	84.38	7.100
Valid N (listwise)	26				

Table 4.3 showed the mean score of pre-test and post-test. The mean score of the pre-test was 69.77 and post-test was 84.38. Further, the standar deviation of the pre-test was higher than the standar deviation post-test ($8.267 > 7.100$).

Table 4.4 the paired sample test of pre-test and post-test

Paired Samples Test									
		Paired Differences					t	df	Sig. (2-tailed)
		Mean	Std. Deviation	Std. Error Mean	95% Confidence Interval of the Difference				
					Lower	Upper			
Pair 1	PreTest - PostTest	-14.615	7.403	1.452	-17.606	-11.625	-10.067	25	.000

Based on table 4.4 above, in the pre-test and post-test the researcher found that the probability value (significant 2-tailed) value is lower than alpha (α) ($0.00 < 0.05$). It means that there is significant. It means that H_1 is accepted and H_0 is rejected.

B. Discussion

This research is pre-experimental. This study applied the media that is fly swatter game to improve the students' vocabulary in learning english of SMPN 8 Palopo.

The result of the research that have been carried out that fly swatter game can improve the students' vocabulary at VIII 9 class. The success of this research is show by the improvement of learning outcomes of students who are the subject of the research.

Based on analysis from the students evaluation at the pre-test, the highest score got by the student was 93 scores and the lowest score was 56. While in the post-test the highest score got by the student was 100 and the lowest score was 70. Based on the observation of students' weakness. The students were not disciplined, the students felt confused how to learn by using fly swatter game, the

students did not master English vocabulary, the lack of time was given for students to work the activities by using fly swatter game, and some students were inconsiderate when learning will be started.

The question in pre-test and post-test were about nouns and verbs. The result of the students' work in most students were easy to answer question part B matching the word, part A in multiple choice the students difficult to answer the question. The students cannot choose the right one word to correct to the other word, but after treatment there was significance progress to the students' score, because most of the students get very good classification.

This research was line with previous researches by Ika Rahmadani Lubis who found that the fly swatter game was effective to improve students' vocabulary. The students who were taught through fly swatter game could achieve a better and the students fell motivated and interested in learning process.

Based on the result of data analysis, researcher concluded that fly swatter game was enough recommended as on of media to improve students' vocabulary because in teaching vocabulary by using fly swatter game has great benefits that may serve a variety of learning purpose. Through the fly swatter game, the students integrate new knowledge and learn how to pronounce the words well.

CHAPTER V

CONCLUSION AND SUGGESTIONS

A. Conclusion

Based on the findings, data analysis and discussion in the previous chapter, the researcher concluded that using short story improve significantly students' vocabulary at the tenth grade of SMA 2 Palopo. Short story was significant to be used in learning and teaching process because it made the students active in learning. It could be proven by the students' score that they have got. In the pre-test, the result of the mean score was 82, 64. Then The post test, the mean score was 90, 08.

B. Suggestion

Based on the result of the data analysis and conclusion, the researcher would like to give some suggestion to be considered by the English teacher as follow:

1. For teacher

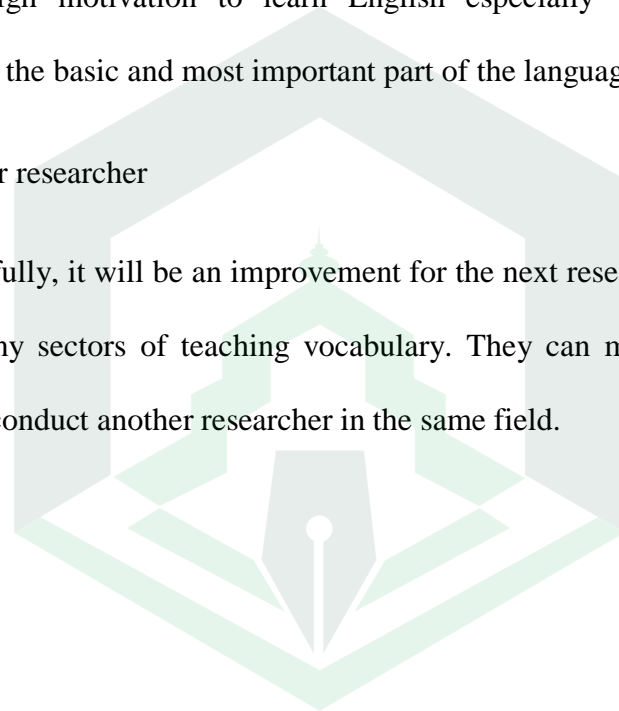

The teacher should be able to use an appropriate method, techniques or media, so they can change the students' mind that learning English is boring. The teacher should be flexible and understand the students' need, so the teaching-learning process can be fun, enjoyable, and interesting.

2. For students

The students should try contributing ideas and becoming an active participant in the learning process in the class. Then, students can be more interested in English and should pay attention to the teacher's explanation. Therefore, they could catch the material given by the teacher. The student should also have high motivation to learn English especially vocabulary, because vocabulary is the basic and most important part of the language.

3. For another researcher

Hopefully, it will be an improvement for the next research. It is possible to optimize many sectors of teaching vocabulary. They can make this study as a reference to conduct another researcher in the same field.
