## ABSTRACT

**Rahima, 2024** "Development of Match Board Learning Media Material on the Names of Angels and Their Tasks in Learning Islamic Religious Education and Character for Class IV of To'Bela 1 State Elementary School. Thesis of Islamic Religious Education Study Program, Faculty of Tarbiyah and Teacher Training, State Islamic Institute (IAIN) Palopo. Supervised by Nurdin k and Dodi Ilham.

This research discusses the development of learning media for match boards, material on the names of angels and their tasks in the learning of Islamic religious education and character class IV, To'Bela 1 State Elementary School. This research aims to determine the analysis of the needs for developing match board learning media with material on the names of angels and their assignments in class IV Islamic Religious Education learning and to find out the results of the validity and practicality test of the match board learning media product with material on the names of angels and their assignments in Religious Education learning Islam class IV.

This research is a type of Research & Development (R&D) research with the ADDIE development model which consists of 5 stages, namely (Analysis, Design, Development, Implementation, Evaluation). This research was conducted at 1 To'Bela State Elementary School with the research subject being grade IV students. The data in this study were obtained from the validation of media experts, material experts, linguists and teacher response questionnaires. Data collection techniques are observation, interviews, questionnaires, and documentation while the analysis techniques in this study used qualitative and quantitative data analysis techniques.

The results of this study indicate that the learning media of the matched board are declared very valid and practical to use as learning media based on the assessment of media experts of 95.8% with a very valid category, material experts of 95.8% with a very valid category, linguists of 94% with a very valid category and teacher response questionnaires of 97.5% with a very practical category. Based on these results, it can be concluded that the learning media of the match board is very valid and practical to use in learning Islamic Religious Education, especially the material on the names of angels and their duties.

**Keywords :** Learning Media, matchmaking board Material on the Names of Angels and Their Duties PAI and Characteristics at SD Negeri 1 To'Bela.
