Nowadays Indonesian students face many problems in learning English. This happens because many reasons, such as less confidence, not eager with learning method or in the learning media, it can be several reasons why English is so difficult to learn by students or they find it difficult to understand what people mean and they find it difficult to express their response.

The similar cases can also be found in the SMAN 1 Palopo that their difficulties in speaking English are caused by:

1. Less vocabulary in conveying an idea or opinion.
2. Difficult to speak English in common place such as in front of class because of not confidence.
3. The limited ability of English grammar that hinders in speaking
4. The difficulty of pronouncing English vocabulary so difficult to pronounce it.

Based on the problem above, the researcher is motivated to study about The Effectiveness of Using One Word Becomes One Hundred Word Strategy to Improve the Students' Speaking Skill at the Tenth Grade of SMAN 1 Palopo. As the way of learning, One Word Becomes One Hundred Word Strategy can help students to improve their speaking skill. In One Word Becomes One Hundred Word Strategy the students will be interested to express their opinion or idea about the word by enjoyably and their own ways. This strategy builds their confidence to speak up, because they can describe the word that is familiar in their life and use their own word, way and their experiences with the word.

### REVIEW OF RELATED LITERATURE

#### A. *Previous Study*

In this chapter the researcher present the previous related research findings, they are cited below :

1. Nurhayati (2013), in her research “Improving Students’ Speaking Skill Through One Word Becomes One Hundred Words Strategy at The Eleventh Year of SMAN 4 Malang’’. The problem of this research: what is the effective way in teaching speaking by using One Word Becomes One Hundred Word Strategy? The researcher used Classroom Action Research (CAR) with two circles. In collecting data the researcher used observation sheets, test, video tabe recorder and questionnaire. Each cycle consist of four parts: planning, action, observation, and reflection. The research found that by using One Word Becomes One Hundred Words Strategy at the eleventh year of SMAN 4 Malang was teacher give interesting topic as give a student a word then he explain it, student practice speaking English in the front of his friends, students bring English Dictionary in every meeting, give students motivation about important of English. The result of the research showed that were significant improvement on students’ speaking skill at the eleventh year students of SMAN 4 Malang after conducting the one word becomes one hundred words strategy in learning process. In which the students score in cycle II is bigger that the students score in cycle I. Besides that, their speech was more fluently than the previous cycle. The researcher found almost all of the students give positive responds toward one word becomes one

hundred words strategy in improving speaking skill. It means that one word becomes one hundred words give significant improvement to the students speaking skill<sup>6</sup>

2. **Muh.Takdir (2012)**, in his research “Improving Speaking Skill Though One Word Becomes One Hundred Words Strategy at The Tenth Year Students of Junior High Scholl SMPN 1 Mojoanyar Mojokerto”. He stated that, by using this strategy, it can improve the students speaking skill and has been significant influence in teaching speaking class performance.<sup>7</sup>
3. **Ronny (2009)**, in his research “The Improvement of Student’s Speaking Skill through One Word Becomes One Hundred Words Strategy at The Eleventh Year Students of SMAN 5 Bogor”. He stated that, by using One Word Becomes One Hundred Words Strategy, it can give significant influence to improve the students’ speaking skill especially at intermediate level.<sup>8</sup>

Those researchers above are the same with this research in the case of focusing on speaking skill on students. It is the same with researcher namely how to improve speaking skill of students by using one word becomes one hundred words strategy and difference only in object of the research. The first researcher did her research at the eleventh year of SMAN 4 Malang, the second research did his research at tenth year of SMPN 1 Mojoanyar Mojokerto, and the last research did his research at the eleventh year of SMAN 5 Bogor. Different with this research, the researcher did his research at SMAN 1 Palopo. So the researcher tries to compare about using one

## ***B. Speaking***

### **1. Definition of Speaking**

There are many definitions of speaking according to experts.

Harmer J (2007:284) stated speaking is the ability to speak fluently and presupposes not only knowledge of language features, but also the ability to process information and language 'on the spot' while Quianthy (1990:7) defines speaking as the process of transmitting ideas and information orally in variety of situations.

Nunan (in kayi, 2006:1) defined speaking as the use of the language quickly and confidently with few unnatural pauses, which is called as fluency. Speaking is the process of building and sharing meaning through the use of verbal and nonverbal symbols, in variety of contexts (Chaney, 1998:13).<sup>9</sup>

Speaking is an interactive process of constructing meaning that involves producing and receiving and processing information (Brown,1994;Burns & joyce,1997).<sup>10</sup>

From the definitions of Speaking above, the researcher concludes that speaking is ability to talk in English. On other word, speaking is ability to speak target language to communicative with others that consist of accuracy, fluency, and comprehensibility.

In communicating something to the order we should have many vocabularies to explain our ideas. In formal and formal communication we should understand what the other says and he understand what we say too.<sup>11</sup>

Therefore, in formal environment between teachers and students always interaction to make communication where communication is the output modality and learning is the input modality of language acquisition. Because in fact, much of our daily communication remain interactional being been able to enter act in a language is essential. On the other word, language instructor should provide learners with opportunities for meaningful communicative behavior about relevant topic by using learner-interaction as the key to teaching language for communication because communication derives essentially from interaction.

In other view, speaking is fundamentally and instrumentally act. Speaker talks in order to have some effect on their listeners. They assert things to change their state of knowledge. They ask the question to get them to provide information. They request things to effect them is still other ways. The nature of the speech act should the fore play a control role in the process of speech. Speaker begins with the intention of effect their listeners in a particular way.<sup>12</sup>

### ***C. One Word Becomes One Hundred Words Strategy***

#### **1. Definition of One Word Becomes One Hundred Words Strategy**

There are three definitions according to experts.

**Ronald Fairbairn (2007)** One word becomes one hundred words means explain a word or vocabulary including information on part of speech, usage, register, style, collection, meaning, pronunciation and grammar. Describing,

narrating, explaining (the formulation is all of informative); greeting, apologizing, asking racially acceptable questions (the ritual); a playing language games. Such learning is essential if efforts at Marco language use to rich and expensive rather than searching and impoverished<sup>13</sup>.

**Mc Callum (1999)**, stated that one word becomes one hundred words strategy is an activity that can provoke students to use their language through the use of hypothetical situation<sup>14</sup>.

**Uun Nurcahyanti (2008)**, One Word Becomes One Hundred Words Strategy is one of the strategies in English learning process to improve the students' speaking skill by giving them a word then they improve it become many words what they knew about it in, speaking English for a few minutes that teacher or lecturer gave.<sup>15</sup>

From some theories about one word becomes one hundred words strategy is one of the strategy can use in speaking class performing, the researcher stated one word becomes one hundred words strategy is expected to improve the learner in presenting their idea easily and enjoyably. Sometimes, one word becomes one hundred words strategy helpful and important. One word becomes one hundred words strategy must contain the information about when the word is used is using the word "mate" is unsatisfactory if it is said that the word "friend" without any explanation. In using one word becomes one hundred words strategy

the students can take out their ideas about what they will say, a way to improve their speaking performance.

Object relation theory is a psychodynamic within psychoanalytic psychology. The theory describe or explanation is processes of developing a mind as one grows in relation to others in the environment the object of word theory are both real others in one's word, and one's internalized images of others. Object relationships are initially formed during early interaction with primary care gave. These early patterns can be altered with experience, but often continue to exert a strong influence throughout life.

When the student describes the word the first need to have some ideas to speak about the word. So there are many ways to get the inspiration or ideas, one of them is through one word becomes one hundred words strategy. The researcher assumed that one word becomes one hundred words strategy can stimulate to get the information and inspiration, because when the student wants to explain about the word that they have to get much information about it and if the word explanation can develop students' speaking skill.<sup>16</sup>

## 2. Procedures of One Word Becomes One Hundred Words Strategy

Here the researcher as a teacher who guides the class of learning speaking by using one word becomes one hundred words strategy. Teaching speaking using one word becomes one hundred words strategy as follows:

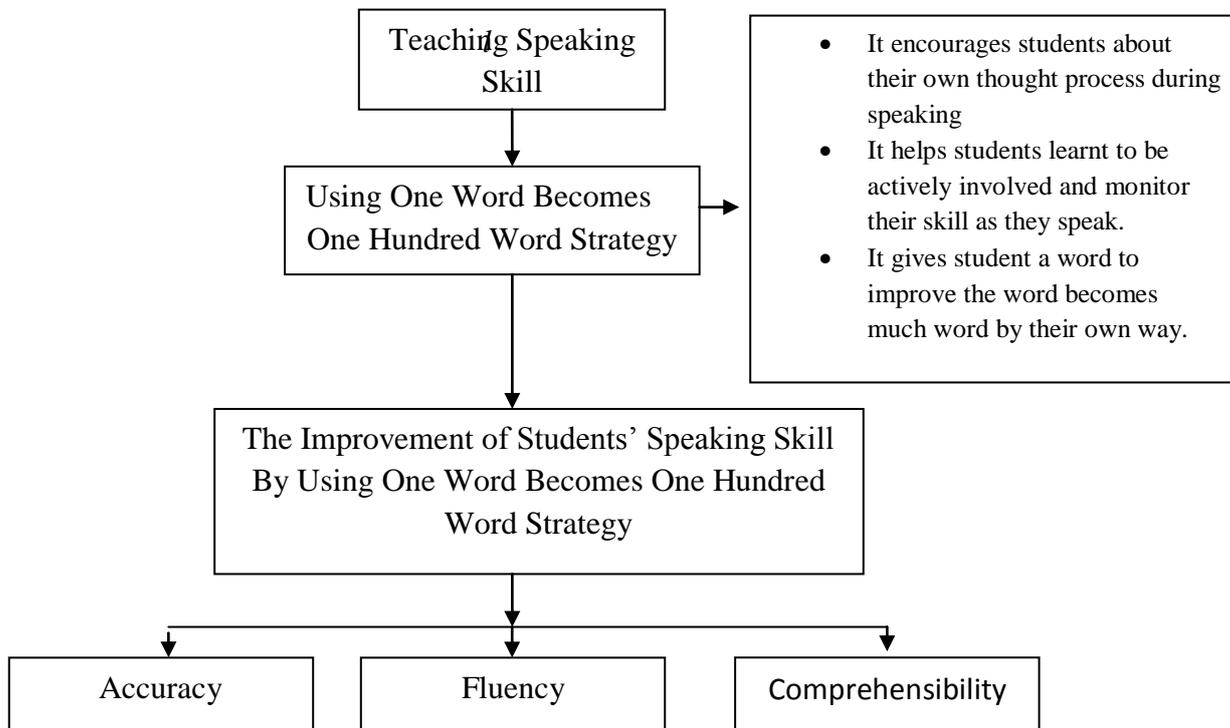

- a. The researcher explains to whole class about the rules of study by using one word becomes one hundred words strategy.
- b. The researcher calls one student come forward.
- c. The researcher gives the student a word to explain it.
- d. The student begins to speak English after the researcher giving him/her a word to explain it.
- e. The student closes his/her speaking after accepting clue from the researcher that time is over.
- f. The researcher calls the next student to come forward for doing the activities above and the last.
- g. The researcher evaluates and gives correction about the students' mistake in explaining a word.<sup>17</sup>

#### D. Conceptual Framework

The theoretical frame work of this research was present as follows:

In the diagram above is classified in the following:

There are some ways to improve students speaking skill by using one word becomes one hundred words strategy, the teacher will make students interest in learning process. In conection with the importance of speaking skill in the students in beginner learner study as English teacher should look for some effective ways teaching by using one word becomes one hundred words strategy in learning process make effective teaching speaking, can improve speaking skill motivation the students speaking skill by using one word becomes one hundred word strategy solving problem can improve students speaking skill.

***E. Hypothesis***

The hypothesis of this research will be formulated as follows :

H<sub>0</sub>: The use of one word becomes one hundred words strategy is not effective to improve the students' English speaking skill at The Tenth grade of SMAN 1Palopo.

H<sub>1</sub>: The use of one word becomes one hundred words strategy is effective to improve the students' English speaking skill at The Tenth grade of SMAN 1Palopo”.

## CHAPTER III

### METHOD OF THE RESEARCH

#### A. Method and Design of Research

##### 1. Method of the Research

In this research, the researcher applied a pre-experimental research method. It aimed to know whether or not “The Students’ English Speaking Skill Using One Word Becomes One Hundred Words Strategy Skill at The Tenth Grade of SMAN 1Palopo.

##### 2. Research Design

This research used pre-test and post-test design the researcher gave pre-test to find out the students’ ability to master speaking English before giving One Word Becomes One Hundred Words Strategy. Furthermore, the students were given post-test to know their speaking skill after applying One Word Becomes One Hundred Words Strategy.

The researcher design conducted as follows:

Pre-test	Treatment	Post-test
O <sub>1</sub>	X	O <sub>2</sub>

Notes: O<sub>1</sub>: Pre-Test  
X: Treatment  
O<sub>2</sub>: Post-Test<sup>18</sup>

**B. Variable of the Research**

This researcher consisted of two variables, namely:

1. Dependent variable was students' English speaking skill.
2. Independent variable was the implementation of using one word becomes one hundred words strategy.

**C. Population and Sample**

1. Population

The population of the research used the students at tenth grade of SMAN 1Palopo.

2. Sample

In this researcher, the researcher applied purposive sampling technique in taking the sample and selected class X IIS 2 as a sample. The researcher selected this class because the students of this class active but in learning English they still low score especially in speaking skill.

**D. Instruments of the Research**

In conducting this research, the researcher was used some instruments on collecting the data during the process of the research, those instruments are:

1. Speaking test

The researcher was used speaking test, which consist of pre-test and post-test in collecting data, the researcher gave the students' score of their participation. It aimed to know the students 'English speaking skill. Post-test was given after treatment done, it aimed at knowing the achievement score of students 'ability in speaking skill before and after treatment.

## 2. Documentation

The research was used voice recorder for helping the researcher in this research to know condition in the class and help the research and as evaluation the data

### ***E. Procedure of Collection Data***

The data was collected by using the procedures below:

#### 1. Giving Pre-Test

In pre-test the researcher was given speaking test to find out students' speaking skill in speaking English for a few minutes that the researcher gives.

#### 2. Giving treatment

In treatment the researcher was conducted some steps. The steps were follows:

- a. The researcher explains about pattern language to make a sentence.
- b. The researcher explains to whole class about the rules of study by using one word becomes one hundred word strategy.
- c. The researcher calls one student come forward.
- d. The researcher gives the student a word to explain it.
- e. The student begins to speak English after the researcher gives him/her a word to explain it.
- f. The student closes his/her speaking after accepting clue from the researcher that time is over.
- g. The researcher calls the next student to come forward for doing the activities above and the last.

- h. The researcher evaluates and gives correction about the students' mistake in explaining a word.

The researcher conducted treatment for six meeting. The steps are follows:

1) The first meeting

a) Researcher explained English sentence patterns:

- Intransitive (S + V Intransitive) Sentences She eats.
- Intransitive sentences use Adverb (S + V intransitive + Adv) She runs quickly.
- Intransitive Sentences with Prepositional Phrases (S + Verb Intransitive + Prepositional Phrases) I go at 8.00 o'clock.
- Transitive Verb Sentences (S + Verb Transitive + Direct Object)

My Brother washes his Motorcycle.

- Researchers will explain what one word becomes one hundred words strategy.
- Researcher provided a subject for discussion on "what do you think about computer?"

- b). The teacher instructed students to form several groups.
- c). Each group consists of 5-6 people.
- d). The teacher gave the topic of learning to each group.
- e). The teacher gave the opportunity for each group to discuss their respective learning topics.
- f). Each group had one representative to come forward to the class explaining the characteristics and characteristics of the topics they got.
- g). Then the teacher gave the opportunity to other groups to explain the learning topic.

- Students collected the ideas of the discussion content and arrange them into a text.

- Student come to the front of the class to present ideas of the content of the discussion.

## 2) The Second Meeting

a) Researcher reviewed the previous material

b) Researcher provided a subject for discussion on "what do you think about Television?"

c) The teacher instructed students to form several groups.

d) Each group consists of 5-6 people.

e) The teacher gave the topic of learning to each group.

f) The teacher gave the opportunity for each group to discuss their respective learning topics.

g) Each group had one representative to come forward to the class explaining the characteristics and characteristics of the topics they got.

h) Then the teacher gave the opportunity to other groups to explain the learning topic.

- Students collected the ideas of the discussion content and arrange them into a text.

- Student come to the front of the class to present ideas of the content of the discussion.

## 3) The Third Meeting

a) Researcher reviewed the previous material

b) Researcher provided a subject for discussion on "what do you about Motorcycle?"

c) The teacher instructed students to form several groups.

d) Each group consists of 5-6 people.

- e) The teacher gave the topic of learning to each group.
  - f) The teacher gave the opportunity for each group to discuss their respective learning topics.
  - g) Each group had one representative to come forward to the class explaining the characteristics and characteristics of the topics they got.
  - h) Then the teacher gave the opportunity to other groups to explain the learning topic.
    - Students collected the ideas of the discussion content and arrange them into a text.
    - Student came to the front of the class to present ideas of the content of the discussion.
- 4) The Forth Meeting
- a) Researcher reviewed the previous material
  - b) Researcher provided a subject for discussion on "what do you think about Radio?"
  - c) The teacher instructed students to form several groups.
  - d) Each group consists of 5-6 people.
  - e) The teacher gave the topic of learning to each group.
  - f) The teacher gave the opportunity for each group to discuss their respective learning topics.
  - g) Each group had one representative to come forward to the class explaining the characteristics and characteristics of the topics they got.
  - h) Then the teacher gave the opportunity to other groups to explain the learning topic.
    - Students collected the ideas of the discussion content and arrange them into a text.

- Student came to the front of the class to present ideas of the content of the discussion.

5) The Fifth Meeting

- a) Researcher reviewed the previous material
- b) Researcher provided a subject for discussion on "what do you think about Plane?"
- c) The teacher instructed students to form several groups.
- d) Each group consists of 5-6 people.
- e) The teacher gave the topic of learning to each group.
- f) The teacher gave the opportunity for each group to discuss their respective learning topics.
- g) Each group had one representative to come forward to the class explaining the characteristics and characteristics of the topics they got.
- h) Then the teacher gave the opportunity to other groups to explain the learning topic.

- Students collected the ideas of the discussion content and arrange them into a text.

- Student came to the front of the class to present ideas of the content of the discussion.

6) The Sixth Meeting

- a) Researcher reviewed the previous material
- b) Researcher provided a subject for discussion on "what do you think about Car?"
- c) The teacher instructed students to form several groups.
- d) Each group consists of 5-6 people.
- e) The teacher gave the topic of learning to each group.

- f) The teacher gave the opportunity for each group to discuss their respective learning topics.
- g) Each group had one representative to come forward to the class explaining the characteristics and characteristics of the topics they got.
- h) Then the teacher gave the opportunity to other groups to explain the learning topic.
  - Students collected the ideas of the discussion content and arrange them into a text.
  - Student came to the front of the class to present ideas of the content of the discussion.

### 3. Giving post-test

In post- test researcher was the same activities as in pre-test, namely the researcher was given speaking test to find out students' speaking skill in speaking English for a few minutes that the researcher gives.

## ***F. Data Analysis Procedure***

Having collected the data by conducting the pre-test, treatment and post-test which involved some instruments, the researcher then focus on the data analysis. Therefore, there were some procedures which done by researcher, namely; determining the scoring classification to make the researcher easy to conclude the data collected, standard of deviation it know about how far was the students deviate in speaking and the test of significance to know the final result of the research. Those procedures were used one word becomes one hundred words strategy:

### 1. Scoring Classification

In analyzing the data was collected, the researcher had to determine the scoring classification which includes of accuracy, fluency, and comprehensibility. Those assessment criteria explained by J.B Heaton as follows<sup>19</sup>:

a. Accuracy

Classification	Score	Criteria
Excellent	6	Pronunciation is only very slightly influenced by the mother-tongue. Two or three minor grammatical and lexical errors.
Very Good	5	Pronunciation is slightly influenced by the mother-tongue. A few minor grammatical and lexical errors but most utterance are correct.
Good	4	Pronunciation is still moderately influenced by the mother-tongue. But not serious phonological errors. A few grammatical and lexical errors causing confusion.
Average	3	Pronunciation is influenced by the mother-tongue but only a few serious phonological errors, some of which cause confusion.
Poor	2	Pronunciation seriously influenced by mother-tongue with errors causing a break-down in communication. Many 'basic' grammatical and lexical errors.

<sup>19</sup> J. B. Heaton, *Writing English Language Test*, (New York; Longman, 1991), p. 98

Very Poor	1	Serious pronunciation errors as well as many 'basic' grammatical and lexical errors. No evidence of having mastered any the language skill and areas practiced in the course.
-----------	---	---

---

b. Fluency

---

Classification	Score	Criteria
Excellent	6	Speaks without too great an effort with a fairly wide range of expression. Searches for words occasionally but only one or two unnatural pauses.
Very Good	5	Has to make an effort at times to search for words. Nevertheless, smooth delivery on the whole and only a few unnatural pauses.
Good	4	Although he has to make an effort and search for words, there are not too many unnatural pauses. Fairly smooth delivery mostly. Occasionally fragmentary but succeeds in conveying the general meaning. Fair range of expression.
Average	3	Has to make an effort for much of the time. Often has to search for the desired meaning. Rather halting delivery and fragmentary range of expression often

		limited.
Poor	2	Long pauses while he searches for the desired meaning. Frequency fragmentary and halting delivery. Almost gives up making the effort at times. Limited range of expression.
Very Poor	1	Full of long and unnatural pauses. Very halting and fragmentary delivery. At times up making the effort. Very limited range of expression.

---

c. Comprehensibility

---

Classification	Score	Criteria
Excellent	6	Easy for listener to understand the speaker's intention and general meaning. Very few interruptions or classifications required.
Very Good	5	The speaker's intention and general meaning are fairly clear. A few interruptions by the listener for the sake of clarification are necessary.
Good	4	Most of what speaker says is easy to follow. His intention is always clear but several interruptions are necessary to help him to convey the message or to seek clarification.

Average	3	The listener can understand a lot of what is said, but he must constantly seek clarification. Can-not understand many of the speaker's more complex or longer sentences.
Poor	2	Only small bits (usually short sentences and phrases) can be understood and then with considerable effort by someone who is used to listening to the speaker.
Very Poor	1	Hardly anything of what is said can be understood. Even when the listener makes a great effort or interrupts, the speaker is unable to clarify anything he seems to have said.

---

Beside the technical of classification through six scales above, the researcher also make rating classification which used to give students obtained. The following in rating scale classification:

Classification	Scale	Rating
Excellent	6	86-100
Very Good	5	71-85
Good	4	56-70
Average	3	41-55
Poor	2	26-40
Very Poor	1	1-25

---

In this research the divided mean score and standard deviation of the students' score in pre-test and post-test by using SPSS 20.

**G. *Criteria of Hypothesis Acceptability***

To prove the hypothesis, the data obtained from the experiment class was concluded by using the t-test formula with the assumption as follows:

2. If  $T\text{-count} \geq T\text{-table}$  : ( $H_0$ ) is rejected and ( $H_1$ ) is accepted. It means that the score of the students' have significantly different and One Word Becomes One Hundred Words Strategy is effective to improve students' speaking skill.
3. If  $T\text{-count} \leq T\text{-table}$  : ( $H_0$ ) is accepted and ( $H_1$ ) is rejected. It means that the score of the students' not have significantly different and One Word Becomes One Hundred Words Strategy is not effective to improve students' speaking skill.

## CHAPTER IV

### FINDINGS AND DISCUSSIONS

This chapter includes two sections. The first is finding of the research. It deals with the result of the data analysis from the field. The second is discussion section deals with argument and further explanation of the findings.

#### A. Findings

The findings of the research showed the result of the data that have been analyzed statistically. It comprised the students' score of the experimental class in pre-test and post-test. In this part, the researcher reported the result of pretest and posttest.

#### 1. Students' Score of Pre Test and Post Test

##### a. Students' Pretest Result

**Table 4.1. : The Score of Students' Pretest Result**

Speaking skill consisted of three aspects; namely accuracy, fluency and comprehensibility. The researcher would present and tabulated the mean score of the students speaking ability one by one. All of those would explain by the following tables:

**Table 4.2. : The Mean Score of Students' Accuracy Pretest**

Descriptive Statistics							
	N	Range	Minimum	Maximum	Sum	Mean	Std. Deviation
Accuracy	24	1.00	1.00	2.00	28.00	1.1667	.38069
Valid N (listwise)	24						

From the result of descriptive statistic, it is found that the highest score of students was 2 and the lowest score was 1. Besides, it also indicates that the mean score of students' accuracy in pre-test is 1, 16 and the standard deviation error is 0, 38.

**Table 4.3. : The Rate Percentage Score of Students' Accuracy in Pretest**

Classification	Score	Rating	Frequency	Percentage (%)
Excellent	86-100	6	0	0
Very Good	71-85	5	0	0
Good	56-70	4	0	0
Average	41-55	3	0	0
Poor	26-40	2	4	16,7
Very Poor	≤ 25	1	20	83,3
Total			24	100

Table 4.3 shows that students' score of speaking skill in pre-test especially in accuracy. There were 20 students (83,3%) got very poor score. There were 4 students (16,7%) got poor score.

**Table 4. 4. : The Mean Score of Students' Fluency in Pretest**

Descriptive Statistics							
	N	Range	Minimum	Maximum	Sum	Mean	Std. Deviation
Fluency	24	1.00	1.00	2.00	37.00	1.5417	.50898
Valid N (listwise)	24						

The data shows that the highest score of students was 2 and the lowest score was 1. It also indicates that the mean score of students' fluency in pretest was 1.54 and standard deviation error was 0.50.

**Table 4. 5. : The Rate Percentage of Students' Fluency Score in Pretest**

Classification	Score	Rating	Frequency	Percentage (%)
Excellent	86-100	6	0	0
Very Good	71-85	5	0	0
Good	56-70	4	0	0
Average	41-55	3	0	0
Poor	26-40	2	13	54,17
Very Poor	≤ 25	1	11	45,83
Total			24	100

Table 4.5 shows that students' score of speaking skill in pre-test especially in fluency. There were 11 students (45,83%) got very poor score. There were 13 students (54,17%) got poor score.

**Table 4. 6.: The Mean Score of Students' Comprehensibility in Pretest**

Descriptive Statistics							
	N	Range	Minimum	Maximum	Sum	Mean	Std. Deviation
Comprehensibility	24	1.00	1.00	2.00	31.00	1.2917	.46431
Valid N (listwise)	24						

The data above shows that the highest score of students was 2 and the lowest score was 1. It also indicates that the mean score of students' comprehensibility in pretest was 1.29 and standard deviation error was 0.46.

**Table 4. 7. : The Rate Percentage of Students' Comprehensibility Score in Pretest**

Classification	Score	Rating	Frequency	Percentage (%)
Excellent	86-100	6	0	0
Very Good	71-85	5	0	0
Good	56-70	4	0	0
Average	41-55	3	0	0
Poor	26-40	2	7	29,11
Very Poor	≤ 25	1	17	70,83
Total			24	100

Table 4.7 shows that students' score of speaking skill in pre-test especially in comprehensibility. There were 17 students (70,83%) got very poor score. There were 7 students (29,11%) got poor score.

#### **b. Students' Posttest Result**

After knowing the students' score in pre-test, the researcher gave them treatment by using one word becomes one hundred words strategy.

The result of the students' score in posttest presented in the following table by dividing them into three aspects, they are accuracy, fluency and comprehensibility.

**Table 4. 8. : The Score of Students' Posttest Result**

Respondents	The Aspects Score of Speaking Skill			Total
	Accuracy	Fluency	Comprehensibility	
R1	4	5	5	14
R2	2	3	3	8
R3	4	5	4	14
R4	3	3	3	9

R23	3	4	4	11
R24	2	3	2	7

In other side, the researcher had classified based on English speaking assessments that consisted of accuracy, fluency, comprehensibility and it was presented through table distribution frequency and percentage.

**Table 4. 9. : The Mean Score of Students' Accuracy in Post-test**

	Descriptive Statistics						
	N	Range	Minimum	Maximum	Sum	Mean	Std. Deviation
Accuracy	24	2.00	2.00	4.00	61.00	2.5417	.72106
Valid N (listwise)	24						

From the result of descriptive statistic above, it is found that the highest score of students is 4 and the lowest score is 2. Besides, it also indicates that the mean score of students' accuracy in post-test is 2,54 and the standard deviation error is 0,72.

**Table 4. 10. : The Rate Percentage Score of Students' Accuracy in Posttest**

Classification	Score	Rating	Frequency	Percentage (%)
Excellent	86-100	6	0	0
Very Good	71-85	5	0	0
Good	56-70	4	3	12,5
Average	41-55	3	7	29,16
Poor	26-40	2	14	58,34
Very Poor	≤ 25	1	0	0
Total			24	100

Table 4.10 shows that students' score of speaking skill in post-test especially in accuracy. There were 14 students (58,34%) got poor score. There were 7 students (29,16 %) got poor score. There were 3 students (12,5 %) got good score.

**Table 4. 11. : The Mean Score of Students' Fluency in Posttest**

Descriptive Statistics							
	N	Range	Minimum	Maximum	Sum	Mean	Std. Deviation
Fluency	24	3.00	2.00	5.00	74.00	3.0833	.88055
Valid N (listwise)	24						

The data shows that the highest score of students was 5 and the lowest score was 2. It also indicates that the mean score of students' fluency in posttest was 3.08 and standard deviation error was 0.88.

**Table 4. 12. : The Rate Percentage of Students' Fluency Score in Posttest**

Classification	Score	Rating	Frequency	Percentage (%)
Excellent	86-100	6	0	0
Very Good	71-85	5	2	8,33
Good	56-70	4	4	16,67
Average	41-55	3	12	50
Poor	26-40	2	6	25
Very Poor	≤ 25	1	0	0
Total			24	100

Table 4.12 shows that students' score of speaking skill in post-test especially in fluency. There were 6 students (25%) got poor score. There were 12 students (50%) got average score. There were 4 students (16, 67%) got good score. There were 2 students (8, 33%) got very good score.

**Table 4. 13. : The Mean Score of Students' Comprehensibility in Posttest**

Descriptive Statistics							
	N	Range	Minimum	Maximum	Sum	Mean	Std. Deviation
Comprehensibility	24	4.00	1.00	5.00	68.00	2.8333	.96309
Valid N (listwise)	24						

The data above shows that the highest score of students was 5 and the lowest score was 1. It also indicates that the mean score of students' comprehensibility in posttest was 2.83 and standard deviation error was 0.96.

**Table 4. 14. : The Rate Percentage of Students' Comprehensibility Score in Posttest**

Classification	Score	Rating	Frequency	Percentage (%)
Excellent	86-100	6	0	0
Very Good	71-85	5	1	4, 16
Good	56-70	4	5	20, 84
Average	41-55	3	8	33, 34
Poor	26-40	2	9	37, 5
Very Poor	≤ 25	1	1	4, 16
Total			24	100

Table 4.14 shows that students' score of speaking skill in post-test especially in comprehensibility. There was 1 student (4, 16%) got very poor score. There were 9 students (37, 5%) got poor score. There were 8 students (33, 34 %) got average score. There were 5 students (20, 84%) got good score. There was 1 student (4, 16%) got very good score.

## 2. The Mean Scores and Standard Deviation of The Students' Pre-test and Post-test

**Table 4. 15. : Mean Score and Standard Deviation of Students' Pretest and Posttest**

	Descriptive Statistics				
	N	Minimum	Maximum	Mean	Std. Deviation
Pretest	24	16.67	44.44	23.3796	6.75051
Posttest	24	33.33	72.22	46.9907	13.20583
Valid N (listwise)	24				

From the table 4.15 it indicated that the standard deviation in pre-test were 6, 75 and in post-test were 13, 20. It also shows that mean score of the students in pre -test were 23, 37 and the mean score of the students in post-test were 46, 99. The result of the table above showed that the mean score of students in post-test was higher than the mean score of students in pre-test. It concluded that using one word becomes one hundred words strategy was effective in teaching speaking.

## 3. The Calculation of t-test Pretest and Posttest

To know whether the pre-test and post-test were significantly different, and also to know acceptability of the hypothesis of the research, the researcher used t-test analysis and calculated it by SPSS 20. The result could be shown in the

table of paired samples statistics, paired samples correlations, and paired samples test. It was presented in the following tables:

**Table 4. 16. : The Paired Samples Statistics Paired Samples Correlations and the Paired Samples Test of Pre-Test and Post-Test**

<b>Paired Samples Statistics</b>					
		Mean	N	Std. Deviation	Std. Error Mean
Pair 1	Pretest	23.3796	24	6.75051	1.37794
	Posttest	46.9907	24	13.20583	2.69563

<b>Paired Samples Correlations</b>				
		N	Correlation	Sig.
Pair 1	Pretest & Posttest	24	.432	.035

Table paired sample statistics of pretest and posttest above indicates that value of standard deviation in pretest was 6, 750 and 13, 205 in posttest. Besides, the standard deviation error in pretest was 1, 377 and in posttest was 2, 695. The table above also shows that mean score in pretest was 23, 37 and in posttest was 46, 99. It can be concluded that the students 'score improved from 23, 37 to 46, 99.

The table paired samples correlations of pretest and posttest above present that correlation of the students 'speaking skill before and after treatment was 0,4. It means that there was significant correlation of students' speaking skill in teaching speaking English by using one word becomes one hundred words strategy before and after treatment.

**Paired Samples Test**

	Paired Differences					t	df	Sig. (2-tailed)
	Mean	Std. Deviation	Std. Error Mean	95% Confidence Interval of the Difference				
				Lower	Upper			
Pair 1 Pretest – Posttest	-23.61111	11.95469	2.44024	-28.65913	-18.56309	9.676	23	.050

From the table paired samples test, the researcher got the data that  $T_o(T_{count}) = 9,676$  and  $df$  (degree of freedom) = 23. To know clearly about the table distributions of t-table, can be seen in table below:

**Table 4. 17. : T-Table Distributions**

Df	P (Level of Significance One Tailed Test)			
	0.01	0.05	0.01	0.001
1	6.314	12.706	63.657	636.619

$T_t(T_{table}) = 2,069$ , it was the standard of signification 5% (0, 05) with degree of freedom (df) = 23. Based on the result the researcher concluded that  $T_o(T_{count})$  was higher than  $T_t(T_{table})$ ,  $T_o > T_t$ .

$$9.676 > 2.069$$

Related to the result that  $T\text{-count} \geq T\text{-table}$  : ( $H_o$ ) is rejected and ( $H_1$ ) is accepted. It means that the score of the students' have significantly different and

One Word Becomes One Hundred Words Strategy Was Effective to Improve Students' Speaking Skill At The Tenth Grade SMAN 1Palopo.

### ***B. Discussions***

Based on the findings of the research the data analysis above shows that using one word becomes one hundred words strategy improved students' speaking skill in posttest, it can be seen on the table before after giving treatments continually by using one word becomes one hundred words strategy the mean score of students.

In this part, the researcher took 3 respondents as the representation that has different skills they are students R1, R2, and R3. From these three respondents were different comparison on speaking skill of one word becomes one hundred words strategy are height, medium and low in pretest. The research found the R1 can describe the topic in pretest. But she was very poor accuracy then poor fluency and comprehensibility in describe a topic. Besides that, after the researcher giving treatment about one word becomes one hundred words strategy even more the R1 excited to learn to describe something. Before the researcher giving treatment she was 1, 66 mean score in pretest and after give treatment she got 4, 33 mean score in posttest.

R2 has a different comparison between R1 above. Because he has very low from R1 and R3. After the researcher giving treatment about one word becomes one hundred words strategy he was not interest and lazy to describe a topic. Before the researcher give treatment he was 1, 00 mean score in pretest and after giving treatment he got 2, 66 mean score in posttest.

R3 has a medium ability to describe a topic. After the research giving treatment about one word becomes one hundred words strategy she has a motivation to learn speaking especially describe something. After that, before the researcher giving treatment she was 1, 33 mean score in pretest and after giving treatment she got 4, 33 mean score in posttest.

In this research, there were previous researchers; the first is Nurhayati in her research “Improving Students’ Speaking Skill through One Word Becomes One Hundred Words Strategy at The Eleventh Year of SMAN 4 Malang”. The problem of this research: what is the effective way in teaching speaking by using One Word Becomes One Hundred Word Strategy? The researcher used Classroom Action Research (CAR) with two circles.

The second is Muh.Takdir, in his research “Improving Speaking Skill Though One Word Becomes One Hundred Words Strategy at The Tenth Year Students of Junior High Scholl SMPN 1 Mojoanyar Mojokerto”. He states that, by using this strategy, it can improve the students speaking skill and has been significant influence in teaching speaking class performance.

The last is Ronny, in his research “The Improvement of Student’s Speaking Skill Through One Word Becomes One Hundred Words Strategy at The Eleventh Year Students of SMAN 5 Bogor”. He states that, by using One Word Becomes One Hundred Words Strategy, it can give significant influence to improve the students’ speaking skill especially at intermediate level.

Those researchers above are the same with this research in the case of focusing on speaking skill on students. It is the same with researcher namely how

to improve speaking skill of students by using one word becomes one hundred words strategy and difference only in object of the research. The first researcher did her research at the eleventh year of SMAN 4 Malang, the second research did his research at ninth year of SMPN 1 Mojoanyar Mojokerto, and the last research did his research at the eleventh year of SMAN 5 Bogor. Different with this research, the researcher did this research at SMAN 1Palopo.

Based on explanation above, teaching speaking skill by using one word becomes one hundred words strategy at SMAN 1Palopo, the students got significant improvement in their score speaking skill. Therefore, it could be stated that one word becomes one hundred words strategy in teaching learning of speaking have solved the students' speaking problem and increase the students' speaking skill for the tenth grade students of SMAN 1Palopo. So, the hypothesis proposed in this research which says "the use of one word becomes one hundred words strategy was effective to teach speaking skill" is accepted.

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### *A. Conclusions*

Based on the findings and discussion in the previous chapter, the researcher can conclude that the use of one word becomes one hundred words strategy is effective to improve students' speaking skill especially describing about technology such as radio, television, plane, laptop, motorcycle, car, mobile phone and internet at the tenth grade of SMAN 1Palopo. That was significant improvement. It was proven by the significant difference between the students' mean score at the pre-test and the post-test, the mean score of the students in the pre-test was 23, 3 and the mean score of the post-test was 46, 9. It indicates that data alternative enhances the students' speaking skill.

#### *B. Suggestions*

Based on the conclusion of the research, the researcher suggest for the following parties:

1. For the Teacher

The teacher must given the new or interest strategy to students which close to the students' life because it will give the students more interested to learn and also make the students enjoy and fun when they apply one word becomes one hundred words strategy.

2. For the students

The students should be diligent to practice and have strategy, such as describing an interesting topic to improve their speaking skill in English.

3. For the next researcher

The researcher realizes that this research is far from being perfect. Therefore the research suggests that other researchers who conduct similar research to develop this research to improve the students' speaking skill or in others materials.
