Key Word: Flip Chart, Improving, Speaking, English teaching at MAN Palopo.

This thesis about with using flip chart media to improving students speaking ability at the eleventh grade of Madrasah Aliyah Negeri (MAN) Palopo. The problem statement of this thesis: Is the use of flip chart media effective to improve students' speaking ability at the Eleventh grade of Madrasah Aliyah Negeri (MAN) Palopo.

The research used quasi-experimental. The research was carried out in two classes, experimental class and control class. The population of this research was the tenth grade students of Madrasah Aliyah Negeri (MAN) Palopo. The number of population was 40 students. The sample of the research was class X MIA 1 consisted of 20 students as experimental class and class X MIA 2 consisted of 20 students as control class. The sampling technique in this research was purposive sampling. The instrument of the research was speaking test. The research gave pretest and posttest to the students. The data analyzed by using SPSS 20.

The result of this research showed that the use of flip chart media is effective to improve students speaking ability. It could be seen from the result of calculation that the students' score in experimental class was higher than students' score in control class. Based on the data analysis it can conclude that teaching speaking ability by using flip chart media is effective at the eleventh grade of Madrasah Aliyah Negeri (MAN) Palopo. The implementation of this research for those who are interested to conduct research on problem statement, it is suggested to apply it to the students who have basic speaking language skill and the researcher hoped that the result of this research could be useful for the readers.
